Operation Clean Sweep begins Tuesday, April 6th, weather permitting

The City of Prince Albert would like to advise residents that city crews will begin street sweeping operations on Tuesday, April 6th, 2010, a full week earlier than last year. Street sweeping is conducted each year to clean up City streets by removing sand and debris left behind from the winter. The work done by City crews helps to prevent the material from going into the City's storm sewer system, reduces dust and makes streets safer for cyclists, pedestrians and motorists.

Sweeping will begin in the Central Business District, then move to major emergency and commercial routes, starting with Second Avenue West, 15th Street and then move to the following categories of streets to follow in descending priority:

- Arterial streets (Diefenbaker Bridge, Marquis Road, 6th Avenue East, 15th Avenue East, etc.)
- Collector Streets (Neighborhood level feeder roads that connect to arterial streets.)
- Bus routes and school zones

The City would like to remind motorists to keep a safe distance from street sweeping equipment, as visibility will be reduced by dust and flying debris.

Further information on the frequency and order of residential street sweeping will be released when available.
