Fire Department Youth Mentoring Program Receives NLCDC Grant

Program Makes A Difference

The Prince Albert Fire Department would like to acknowledge the generous contribution of \$7,000 made by the Northern Lights Community Development Corporation (NLCDC) towards the Fire Department Youth Mentoring Program.

According to Fire Chief Les Karpluk “The support provided to the Fire Mentoring Program through donations such as the one by the NLCDC helps lay the foundation for a new future for many of the youth involved in the program. We believe in this program and how it changes young lives in our community.”

According to Terry Mirasty, NLCDC Manager, “The Board of Directors of the Northern Lights Community Development Corporation is pleased to support a program where youth are given opportunities to work with role models in our community. The youth in this program need guidance and are given unique opportunities to team up with our Prince Albert Fire Department Firefighters.”

The five month program which is now in its fourth year has seen youth pursue post secondary education and career opportunities.
