“For Immediate Release”

Spray Parks Ready for Summer *Opening Monday, July 5, 2010*

Four spray parks will be open for business on Monday, July 5, 2010, just in time for the beginning of the City’s annual Playground Program. The Bernice Sayese Centre, Parkland Community Club, the Midtown Community Club and the Westview Community School will each have spray parks in operation. A fifth Spray Park for the Miller Hill area is currently under construction and crews hope to have it finished as quickly as possible .

Last year, the City started moving away from the use of paddling pools and instead phasing in the more interactive and sanitary spray parks. “Rather than managing paddling pools that are essentially pools of standing water, we are adopting the spray parks through out the City,” said Jody Boulet, Recreation Manager for the City of Prince Albert. “Our long term objective is to have spray parks at each of the community club locations.”

The locations of the Spray Parks are:

Bernice Sayese Centre – 1301 13th Street West
Parkland Community Club – 1510 9th Avenue West
Midtown Community Club – 540 9th Street East
Westview Community School – 620 McArthur Drive
Miller Hill – 200 MacDowall Crescent

- 30 -
