City Manager Releases 2009 Annual Report

The City of Prince Albert is pleased to release the 2009 Annual Report to its citizens. This report includes the 2009 Audited Financial Statements and highlights the city's major accomplishments for the year.

This year the financial statements look very different than from previous years. This is the inaugural year for the city to comply with the Tangible Capital Assets (PSAB 3150) Requirement. Because of this requirement it took longer to prepare the statements and it was necessary to do a large amount of capital asset management prior to this statement. "I am really pleased to submit my first annual report since starting with the city two years ago. I believe this document captures our many accomplishments in a very positive way," said Robert Cotterill, City Manager.

You can find an electronic copy of the 2009 Annual Report on the city website at www.citypa.ca.
