## **Installation of Service Connection closes 6<sup>th</sup> Avenue East between 13<sup>th</sup> to 15<sup>th</sup> Street**

*City crews to install service connection starting on Tuesday, September 7*

The City of Prince Albert would like to advise residents that the southbound lanes of 6th Avenue East between 13th to 15th Streets will be closed Tuesday, September 7, 2010 beginning at 10:00 am for the installation of a service connection for a new building. Two-way traffic will be established in the northbound lanes of 6<sup>th</sup> Avenue East between 13<sup>th</sup> to 15<sup>th</sup> Streets, however due to the reduced capacity of the street there may be congestion at peak times, and drivers are encouraged to access their destinations by other routes if able to do so. The partial closure is expected to remain in effect from Tuesday, September 7 to Friday, September 10, weather permitting.

The following week, beginning Monday, September 13, 6<sup>th</sup> Avenue East between 13<sup>th</sup> to 15<sup>th</sup> Streets will be fully closed to vehicular traffic Monday, September 13 at 10:00am for the installation of the water main service. A full detour will be in effect at this time, and drivers will be guided by directive signage. The water main service connection is expected to be completed within three days, weather permitting.

Motorists are reminded to use caution and observe detour routes. The City thanks motorists for their patience and understanding during this period.

Haulers of large loads should contact the Public Works Department, at 953-4900 before travelling through the City at this time.
