## **Asphalt Work on 28<sup>th</sup> Street West**

### *Contractor to complete second lift of asphalt*

The City of Prince Albert wishes to advise motorists of upcoming lane closures on 28<sup>th</sup> Street West in the 600 and 700 block beginning on Monday, September 27<sup>th</sup>. Traffic will be restricted to one lane in each direction while the City's Asphalt Contractor applies the top layer of asphalt in the final segment of the final phase of the West Hill Infrastructure Project. This work is expected to be complete by Tuesday, September 28<sup>th</sup>, weather permitting. The contractor will begin paving on the southbound lanes and progress to the northbound lanes, however this sequencing is tentative and is subject to change.

Directional signage and delineation barricading will be in place to guide vehicles through the work area. Motorists are reminded to use caution when approaching the work zone, to reduce their speed while passing the work site, to be diligent for equipment and personnel working in close proximity to the driving surface, and to potentially expect delays. The City thanks residents for their patience and understanding during this period.
