“For Immediate Release”

Temporary Closure of Central Avenue

The Public Works Department is advising motorists that Central Avenue from 20th to 21st Street has been temporarily closed to traffic due to a watermain break and subsequent road cave-in of the road surface. Traffic may bypass the affected area by detouring one block east to 1st Avenue.

Since the break is located on a transmission line, there has been no disruption of water service to surrounding homes and businesses, and a boil water advisory is not required at this time.

City crews will be conducting utility and road repairs on Tuesday, October 06. The work is expected to be complete by the end of the day, but the closure may be extended if there are unforeseen circumstances.
