### **RE: 2025 Watermain Relining – 20<sup>th</sup> Street (6-7 Avenue)**

---

The City of Prince Albert Public Works Department would like to advise businesses and residents that 20<sup>th</sup> Street East (6-7 Avenue) is scheduled for a Capital Utility & Paving Project during the 2025 Construction season.

#### **Project Details - Watermain Rehabilitation:**

The scope of the project includes the relining of 158 meters (Outlined in **Blue**) of 200mm diameter Cast Iron Watermain (1947) with a structural liner, bringing the main to a like new condition without the need to excavate the roadway along the entirety of the pipe length. In conjunction with the watermain relining a 38-meter section of watermain will be conventionally excavated and replaced with a new 200mm PVC watermain (Outlined in **Red**). The watermain rehabilitation portion of this project will take approximately 1 month to complete, during this time access onto 6<sup>th</sup> Avenue from 21<sup>st</sup> Street East will be available. Above ground water will be provided to all property owners at times when water cannot be provided through the watermain. Driveway access will not be possible for any residents in the **Red** zone during the conventional watermain replacement portion of this project.

#### **Project Details - Road Rehabilitation:**

Upon completion of the watermain relining and watermain replacement on the street, roadway rehabilitation will take place. This includes asphalt milling, paving and select concrete repairs throughout the block. A notice will be provided to residents in May to present further details regarding the roadway rehabilitation portion of this project.

A follow up letter will be provided two weeks prior to construction to provide additional details on the project, scheduling and construction zones. For a list of projects identified for paving and utility replacements, please visit <https://www.citypa.ca/en/parking-streets-and-transportation/capital-projects.aspx>.

If you require further information with respect to this matter, please do not hesitate to contact Public Works at (306) 953-4884.

Yours truly,

Evan Hastings, B.Sc., C.E., EIT  
**Capital Projects Manager**
