Hello
Please find attached my letter with concerns regarding the Prince Albert Transit System

Regards,

When we don't know something, we tend to fill in the blanks, often with garbage assumptions. Why? Many of us would rather be unhappy than uncertain.

Mayor and City Counsellors
Prince Albert, SK

Dear Sirs/Madams:

I am a pedestrian in Prince Albert and I have used the public transit system for about 11 years and I regret to say that I have seen a decline in the transit service over this time. I ask myself why?

I believe it is due to a lack of real caring, on our City's part, for those citizens who do not drive and have limited options.

Some years back an unwise decision was made to purchase a fleet of buses from China – they were a good deal. These buses were only in service for a few years before serious issues became apparent, i.e. cracked frames. It is my understanding that these buses are still sitting in the bus yards.

It appears that First Canada doesn't give a damn about providing buses that meet people's needs - they have been providing buses (school buses, etc.) that are junk. This puts our transit system back to square one. It is my view that the City should get rid of First Canada at the end of any contracts, allowing the City then to take over the Transit system. This could be done by leasing CANADIAN made buses, perhaps easing in a few at a time? I understand that two of the buses that First Canada brought in approximately ten days ago have already suffered structural damage. This is how First Canada keeps operating. This should not be considered acceptable if you are at all concerned about citizens of Prince Albert who do not drive and have limited choices of transportation.

There have been very little public transportation services available for anybody over the last month. Various routes have been consistently down for maintenance, repairs, etc., leaving, once again, transit users without transportation to go about their daily lives, e.g work, appointments, shopping, etc. Many transit users are dependent upon the transit system and are without other viable options. How many were unable to get to their places of employment? How many lost their jobs as a result? Better yet, does anyone care?

I am told that budgets don't allow for the necessary changes. Could that be because of the City's priorities? May be an example would be this big push for a new recreation centre and more hockey rinks, etc. Perhaps it is more important that some of its citizens get to play hockey or swim than for others to get to work and make a living?

I fully appreciate the fact that the City has had to contend with COVID which has added to the overall budget costs to the City, but having said that, there is no reason that the Transit users and their needs should be ignored and considered unimportant.

I have tried numerous times to reach the Transit department, leaving messages with it, as well as with the Mayor's office, and to date, have never received a response. This ignoring of concerns and total lack of response is not what tax payers of Prince Albert deserve. We deserve better from our public officials and leaders.

I have nothing but respect and admiration for our bus drivers who have been put in a very precarious position. Their livelihoods, in a lot of cases, have been put at risk because of not being able to do their jobs as bus drivers.

As a person dependent upon public transit, I do not currently even have the option of walking to/from necessary appointments, etc. Few private sidewalks are shovelled, the business areas are only a fraction better in places, and crosswalks are ventured into only at your own peril – not from vehicles but from dangerously un-maintained sidewalks that are but just a slip-and-fall accident waiting to happen. There are no sidewalks maintained to the hospital even! Numerous times I have observed pedestrians, including people with baby carriages, walking on the sides of the street because there was nowhere else to walk.

Budgets are important, I know. I have to live on one. The City has redirected snow removal funding elsewhere, I understand. I hope the City will understand then, that I had to *re-direct* some of my meager budget to the cost of taxis when I could not go to medical appointments by public transit or walking, and so therefore don't have it available to go towards my taxes or water bill???

I am hoping that my concerns will be at least acknowledged and addressed in the near future.

Respectfully,

Patrick Fairbairn

CITY CLERK

Subject: Prince Albert Transit

Patrick was followed up with, by the Transportation and Traffic Manager on February 28th, 2022. This came shortly after receiving a letter of discussion from Patrick regarding Prince Albert City Transit on February 26, 2022.

Thank you for voicing your questions and concerns. To begin, I would like to apologize for the Transit service that has been experienced over the past months. The City acknowledges that Transit service has been an issue and is working to resolve the problem. Providing reliable Public Transit is an essential City service and the issue is being addressed accordingly.

As you have stated in your letter, the original transit fleet was removed from service in order to ensure the safety of all riders. It should be noted that the fleet was purchased from a North American transit bus manufacturer, not from China. The City is working on a warranty claim for the original fleet.

The City and its Transit Operator are working together diligently to provide the most effective transit service possible for the community. Both parties are working quickly in order to ensure essential parts are ordered and expedited for mandatory bus repairs and maintenance. Extended wait times for parts has led to route modification and cancellations in many municipalities.

To follow up on your statement regarding your previous transit requests, City records were reviewed and there were no documents or service requests found in the system in the last year. It should be noted that the City prides itself in listening to the community and responding to their concerns.

RE: Notice Nature 2022 Community Sponsorship Request

Dear Prince Albert Mayor and City Council,

The North Saskatchewan River Basin Council (NSRBC), the South Saskatchewan River Watershed Stewards Inc (SSRWSI), and Carrot River Valley Watershed Association (CRVWA), your local watershed organizations, are excited to announce the *Notice Nature* 2022 initiative. The vision is to get kids looking up, looking around, and Noticing Nature – the first step to land and water stewardship.

In 2021 the pilot year for Notice Nature, Saskatchewan communities, schools, school divisions, libraries, library headquarters, industry partners, rural municipalities, urban municipalities, non-profit groups, and universities came together in an incredibly synergistic way. Passionate not-for-profit groups created Bingo-style cards full of nature-loving tasks; many industry partners very generously donated prizes. Major financial sponsors came to the table, including **Affinity Credit Union, Global Institute for Water Security, and SGI.**

Notice Nature 2022

In 2022, Notice Nature will expand its delivery to include schools and libraries throughout three watersheds, inclusive of Lloydminster, the Battlefords, Saskatoon, Prince Albert, Kindersley, and surrounding rural and municipal communities. [See map on page 5.](#)

This year's initiative will also include a school engagement portion. As we address the need for youth to develop a voice and sense of self to be our leaders in a sustainable future, we need to go a step further and search for the root of engagement. If we want our youth to be connected and engaged in land and water stewardship, we need first to foster their personal development while preserving and improving mental health and enhancing youth leadership skills.

The Notice Nature program is coordinated by

Notice Nature

Launching spring 2022!

Notice Nature 2022 Needs:

1. **School Activity Card Partners** - Passionate stewardship groups to develop/provide four activities for the bingo-style template with fun educational tasks, including required resources (digital materials and/or physical materials required). In addition to being available for virtual and or in-person classroom school presentations if requested. These presentations/workshops will directly relate to land stewardship while prioritizing mental health and youth leadership, an important step in supporting our future generation of land stewards. See page 4 for partnership recognition.
2. **Library/Public Activity Card Partners** - Passionate stewardship groups to develop/provide four activities for the bingo-style template with fun self-directed tasks, including required resources (digital materials and/or physical materials required.) See page 4 for partnership recognition.
3. **Prize Sponsors** - Stewardship-minded communities and industries to contribute to winning prizes for completed Notice Nature Cards. See page 4 for sponsorship recognition.
4. **Funding Support** - Stewardship-minded communities and industries to provide funding to support the creation and distribution of Notice Nature. Libraries and Schools will be sent resource packages, promotional materials, a set of Notice Nature Cards, the complete Mini Notice Nature ID Guidebook Series. Additional learning resources will be made available at www.noticenature.ca. See page 4 for sponsorship recognition.

We are very excited about the opportunity to offer this meaningful and unique initiative. This year we plan to engage five Library Regions and fourteen School Divisions, Independent First Nations Schools, in addition to a select few schools and libraries that reside outside these areas but within our watershed boundaries. We also plan to co-develop 6-8 new Notice Nature cards and additional learning resources, including classroom presentations with approximately twenty-four stewardship-minded organizations. This year's goal is for some cards to be tailored to teachers so that they may be completed in-classroom (virtual or in-person).

These cards will be available at library branches and schools, also partners and sponsors who choose to print and distribute cards. Each card will have a bingo-style list of tasks to complete (i.e., The "Nature" card may have, plant a tree, help a bee, build a birdhouse, etc.). Once the required number of squares are completed, the child can turn the card into a participating library and collect their prize.

Welcome to the Prince Albert Region

PRINCE ALBERT REGIONAL ECONOMIC DEVELOPMENT ALLIANCE

Welcome to Prince Albert, a vibrant family focused community with a whole world of amenities and all of the conveniences you want just minutes from your doorstep.

Our small-town feel means you will spend less time in traffic and more time to do the activities you love.

No other community combines such a stunning natural landscape with a wealth of amenities including access to a diverse offering of highly skilled professional sports and recreation organizations, an engaged and growing arts and cultural community and committed and passionate non-profit organizations.

Enjoy the great outdoors right here at home with our community parks and spray parks which offer growing families a place to retreat.

A shining example of one of our most prized outdoor spaces is Little Red River Park, one of Canada's largest municipal parks. A "jewel of the north," it consists of over 1,200 acres of parkland only 5 minutes from Downtown Prince Albert. Vast in size, there are enumerable activities to participate in. In the winter months there is so much to be enjoyed: tobogganing, cross country and downhill skiing, snowboarding, and snowshoeing. During the warmer months friends and family can enjoy picnics and wiener roasts, walking, running and biking trails. A new amenity to Little Red River Park is the Knotty Pine Bistro, open year-round it is the perfect place to create friendships that last a lifetime. Little Red River Park provides a quiet and peaceful place to reflect, is diverse in culture, and encourages residents to connect with nature.

COMING SOON to Little Red River Park are three new pedestrian bridges which connect key pathways and the Rotary Adventure Park, a new playground for the whole family as well as play area that focuses on the 8-14 age range, with a higher intensity play to match the environment of the park.

Kinsmen Park is the "heartbeat of Prince Albert". It is the city's oldest and most established park in Prince Albert and is located in the heart of the city just off of Central Avenue. The park hosts special events year round and some amenities include softball diamonds, a soccer field, and an accessible playground. Paved pathways throughout the park allow for easy access from the picnic areas to Kinsmen Spray Park to the much larger outdoor water park, Kinsmen Water Park.

A Message from the Mayor **Welcome**

The Rotary Trail is a natural retreat for the whole family which was built for easy access to an active lifestyle. The community wanted a safe, off-road option for cyclists and pedestrians and now residents for cyclists and pedestrians and now residents and visitors are encouraged to enjoy biking, running and going for walks on the 22.6 km paved pathway that wraps around Prince Albert.

The Alfred Jenkins Field House is home to Canada's largest all-inclusive outdoor play park. New to the facility are soccer fields, tennis courts, pickleball, beach volleyball and basketball courts. Inside the Alfred Jenkins Field House are recreation amenities include a climbing wall, state of the art walking track, gymnasium, and indoor soccer field.

Diverse and Robust **Economy**

The Prince Albert region has a diverse and robust economic base. Centrally located where north meets south and east meets west, the city and immediate region serves as a hub for economic activity. The economy is driven by a mixture of government, health care, forestry, tourism, agriculture, retail and mining. Prince Albert's largest employer is in healthcare, employing nearly 3000 people or about 16% of the workforce. Prince Albert also has a large governmental workforce on local, provincial, and federal levels. Prince Albert is a provincial administration centre for the north.

There are two provincial correctional centres plus related youth camps and a federal penitentiary that employs 250-300 full time staff.

The future looks bright – Forestry is set to once again dominate the local economy after a 15 year hiatus following the closure of the pulp and paper mill. Paper Excellence has secured the forest fiber needed for the 2023 restart of the Prince Albert pulp mill – a move that is expected to create 1,650 jobs.

One Sky Forest Products Ltd. announced it will construct and operate an oriented strand board (OSB) plant. The \$250 million facility will create around 700 jobs in the community.

An agreement was signed with Paper Excellence to operate the OSB facility at the existing Prince Albert mill site.

PAREDA Regional Partners

A message from the Town of Shellbrook

As Mayor of the Town of Shellbrook, on behalf of the Town council and the citizens of Shellbrook, I am pleased to welcome you to our region. The Town of Shellbrook is a founding Member of PAREDA in partnership with our neighboring communities and Rural Municipalities.

Shellbrook is located just 50 km west of Prince Albert and is considered to be a “bed room community” to the city. Moreover, we are also a place of work for some Prince Albert citizens in our varied commercial, educational and health care offerings.

We definitely have the small town feel along with the ability to offer supplies and services for the majority of needs. There are service clubs and sports organizations working toward community development and recreational programming.

Shellbrook is a “hub” to many activities. Commercial and recreation traffic flows through our community as goods and raw agricultural and forestry materials are transported via highways. The location of the town places it on the transitional boundary between rich agricultural land and the northern boreal forests and lakes.

The Town of Shellbrook is definitely a place to work, live, play and grow safely. It is a family friendly environment offering recreation facilities

like ice rinks, ball diamonds, a swimming pool, campground and a beautiful golf course within Town limits.

A K to 12 school system serves the educational needs of our children. There is a registered day care as well as before and after school programs. The community hall and theatre are available to host multiple gatherings. There are two medical clinics including nine physicians, nurse practitioners and other providers.

Shellbrook real-estate offerings include a variety of residential and commercial serviced lots for sale. The town provides a “Tax Free for Three” building incentive.

Shellbrook a Better Place to Grow

"Prince Albert isn't just the 'Gateway to the North', it's the gateway to pristine wilderness that simply takes my breath away every time. The forests and lakes that stretch for hundreds of kilometres north of us are a reminder of an uncomplicated life of fishing, camping, and canoeing. It's a Call of the Wild that always pulls me back, no matter how far away I may go. This is God's country, and He's just sharing it with us."

TITLE: Royal Canadian Legion - Request to Install Monuments in Memorial Square

DATE: **March 7, 2022**

TO: Executive Committee

PUBLIC: X

INCAMERA:

RECOMMENDATION:

Receive and file.

TOPIC & PURPOSE:

The purpose of the report is to provide an update regarding the request from the Royal Canadian Legion to install monuments in Memorial Square in recognition of the Veterans that served in the Afghanistan War, Korean War and also for those who have served as Peacekeepers.

PROPOSED APPROACH AND RATIONALE:

Memorial Square serves as a location to memorialize the service of our Veterans. The Cenotaph, Memorial Plaques and the Legion/ANAVETS flag poles are located in Memorial Square in honour and remembrance of our Veterans.

The Royal Canadian Legion submitted the attached letter dated September 20, 2021 to the attention of the Community Services Department. The proposal outlines the opportunity to include the placement of additional Veterans Monuments in Memorial Square in honour of those who served in the Afghanistan War, Korean War and also for those who have served as Peacekeepers.

The purpose of the proposed project to be completed in partnership with the Royal Canadian Legion Branch #2 and the Army, Navy & Air Force Veterans Unit #222 is to preserve the knowledge and memory of what Veterans have sacrificed for Canada. To honour and recognize the Veterans, it is requested that the Monuments be placed in Memorial Square in close proximity to the Cenotaph. The Monuments will be lit so that they are visible 24 hours a

day and produce striking images in remembrance.

In support of the proposed project, the Royal Canadian Legion has not requested funding support from the City of Prince Albert. The support requested from the City is related to the placement of the Monuments in Memorial Square. Two options located in Memorial Square are currently under consideration. Both are in close proximity to the Cenotaph and both have power nearby to service the lighting requirement.

Further consideration needs to be given to the following factors before a recommended location can be provided:

- Grounds maintenance
- Grass cutting
- Snow removal
- Optimal visibility
- Event site requirements in Memorial Square

The Royal Canadian Legion were successful in receiving \$13,262 in support of the proposed Monuments project from Veterans Affairs Canada under the Commemorative Partnership Program. The Royal Canadian Legion has also contributed a commitment of an additional \$18,000 in support of the project. The projected total amount available is \$31,262.

A recommendation regarding the location will be forwarded for consideration by members of Council once the Legion has finalized their design process for the Monuments. Upon approval by members of Council, the Royal Canadian Legion and ANAVETS have requested a public announcement of the project in Memorial Square.

The shape will be similar to the picture. The size is not confirmed as yet. Approximately 6'-7' feet high and 6 ft wide at the base. The foundation will be 6-8 ft long. Once I have the final actual size I will forward everything to you.

Thank you for your consideration and approval of the placements.

The terms “Aboriginal” and “Indigenous” are used interchangeably in this report. Both terms are used to refer to and include First Nations, Metis, and Inuit peoples of Canada. Calls to Action

In order to redress the legacy of residential schools and advance the process of Canadian reconciliation, the Truth and Reconciliation Commission makes the following calls to action.

Legacy

CHILD WELFARE

1. We call upon the federal, provincial, territorial, and Aboriginal governments to commit to reducing the number of Aboriginal children in care by:
 - i. Monitoring and assessing neglect investigations.
 - ii. Providing adequate resources to enable Aboriginal communities and child-welfare organizations to keep Aboriginal families together where it is safe to do so, and to keep children in culturally appropriate environments, regardless of where they reside.
 - iii. Ensuring that social workers and others who conduct child-welfare investigations are properly educated and trained about the history and impacts of residential schools.
 - iv. Ensuring that social workers and others who conduct child-welfare investigations are properly educated and trained about the potential for Aboriginal communities and families to provide more appropriate solutions to family healing.
 - v. Requiring that all child-welfare decision makers consider the impact of the residential school experience on children and their caregivers.
2. We call upon the federal government, in collaboration with the provinces and territories, to prepare and

publish annual reports on the number of Aboriginal children (First Nations, Inuit, and Métis) who are in care, compared with non-Aboriginal children, as well as the reasons for apprehension, the total spending on preventive and care services by child-welfare agencies, and the effectiveness of various interventions.

3. We call upon all levels of government to fully implement Jordan's Principle.
4. We call upon the federal government to enact Aboriginal child-welfare legislation that establishes national standards for Aboriginal child apprehension and custody cases and includes principles that:
 - i. Affirm the right of Aboriginal governments to establish and maintain their own child-welfare agencies.
 - ii. Require all child-welfare agencies and courts to take the residential school legacy into account in their decision making.
 - iii. Establish, as an important priority, a requirement that placements of Aboriginal children into temporary and permanent care be culturally appropriate.
5. We call upon the federal, provincial, territorial, and Aboriginal governments to develop culturally appropriate parenting programs for Aboriginal families.

EDUCATION

6. We call upon the Government of Canada to repeal Section 43 of the *Criminal Code of Canada*.
7. We call upon the federal government to develop with Aboriginal groups a joint strategy to eliminate

educational and employment gaps between Aboriginal and non-Aboriginal Canadians.

8. We call upon the federal government to eliminate the discrepancy in federal education funding for First Nations children being educated on reserves and those First Nations children being educated off reserves.
9. We call upon the federal government to prepare and publish annual reports comparing funding for the education of First Nations children on and off reserves, as well as educational and income attainments of Aboriginal peoples in Canada compared with non-Aboriginal people.
10. We call on the federal government to draft new Aboriginal education legislation with the full participation and informed consent of Aboriginal peoples. The new legislation would include a commitment to sufficient funding and would incorporate the following principles:
 - i. Providing sufficient funding to close identified educational achievement gaps within one generation.
 - ii. Improving education attainment levels and success rates.
 - iii. Developing culturally appropriate curricula.
 - iv. Protecting the right to Aboriginal languages, including the teaching of Aboriginal languages as credit courses.
 - v. Enabling parental and community responsibility, control, and accountability, similar to what parents enjoy in public school systems.
 - vi. Enabling parents to fully participate in the education of their children.
 - vii. Respecting and honouring Treaty relationships.
11. We call upon the federal government to provide adequate funding to end the backlog of First Nations students seeking a post-secondary education.
12. We call upon the federal, provincial, territorial, and Aboriginal governments to develop culturally appropriate early childhood education programs for Aboriginal families.

LANGUAGE AND CULTURE

13. We call upon the federal government to acknowledge that Aboriginal rights include Aboriginal language rights.

14. We call upon the federal government to enact an Aboriginal Languages Act that incorporates the following principles:
 - i. Aboriginal languages are a fundamental and valued element of Canadian culture and society, and there is an urgency to preserve them.
 - ii. Aboriginal language rights are reinforced by the Treaties.
 - iii. The federal government has a responsibility to provide sufficient funds for Aboriginal-language revitalization and preservation.
 - iv. The preservation, revitalization, and strengthening of Aboriginal languages and cultures are best managed by Aboriginal people and communities.
 - v. Funding for Aboriginal language initiatives must reflect the diversity of Aboriginal languages.
15. We call upon the federal government to appoint, in consultation with Aboriginal groups, an Aboriginal Languages Commissioner. The commissioner should help promote Aboriginal languages and report on the adequacy of federal funding of Aboriginal-languages initiatives.
16. We call upon post-secondary institutions to create university and college degree and diploma programs in Aboriginal languages.
17. We call upon all levels of government to enable residential school Survivors and their families to reclaim names changed by the residential school system by waiving administrative costs for a period of five years for the name-change process and the revision of official identity documents, such as birth certificates, passports, driver's licenses, health cards, status cards, and social insurance numbers.

HEALTH

18. We call upon the federal, provincial, territorial, and Aboriginal governments to acknowledge that the current state of Aboriginal health in Canada is a direct result of previous Canadian government policies, including residential schools, and to recognize and implement the health-care rights of Aboriginal people as identified in international law, constitutional law, and under the Treaties.
19. We call upon the federal government, in consultation with Aboriginal peoples, to establish measurable goals to identify and close the gaps in health outcomes

between Aboriginal and non-Aboriginal communities, and to publish annual progress reports and assess long-term trends. Such efforts would focus on indicators such as: infant mortality, maternal health, suicide, mental health, addictions, life expectancy, birth rates, infant and child health issues, chronic diseases, illness and injury incidence, and the availability of appropriate health services.

20. In order to address the jurisdictional disputes concerning Aboriginal people who do not reside on reserves, we call upon the federal government to recognize, respect, and address the distinct health needs of the Métis, Inuit, and off-reserve Aboriginal peoples.
21. We call upon the federal government to provide sustainable funding for existing and new Aboriginal healing centres to address the physical, mental, emotional, and spiritual harms caused by residential schools, and to ensure that the funding of healing centres in Nunavut and the Northwest Territories is a priority.
22. We call upon those who can effect change within the Canadian health-care system to recognize the value of Aboriginal healing practices and use them in the treatment of Aboriginal patients in collaboration with Aboriginal healers and Elders where requested by Aboriginal patients.
23. We call upon all levels of government to:
 - i. Increase the number of Aboriginal professionals working in the health-care field.
 - ii. Ensure the retention of Aboriginal health-care providers in Aboriginal communities.
 - iii. Provide cultural competency training for all health-care professionals.
24. We call upon medical and nursing schools in Canada to require all students to take a course dealing with Aboriginal health issues, including the history and legacy of residential schools, the *United Nations Declaration on the Rights of Indigenous Peoples*, Treaties and Aboriginal rights, and Indigenous teachings and practices. This will require skills-based training in intercultural competency, conflict resolution, human rights, and anti-racism.

JUSTICE

25. We call upon the federal government to establish a written policy that reaffirms the independence of the

Royal Canadian Mounted Police to investigate crimes in which the government has its own interest as a potential or real party in civil litigation.

26. We call upon the federal, provincial, and territorial governments to review and amend their respective statutes of limitations to ensure that they conform to the principle that governments and other entities cannot rely on limitation defences to defend legal actions of historical abuse brought by Aboriginal people.
27. We call upon the Federation of Law Societies of Canada to ensure that lawyers receive appropriate cultural competency training, which includes the history and legacy of residential schools, the *United Nations Declaration on the Rights of Indigenous Peoples*, Treaties and Aboriginal rights, Indigenous law, and Aboriginal-Crown relations. This will require skills-based training in intercultural competency, conflict resolution, human rights, and anti-racism.
28. We call upon law schools in Canada to require all law students to take a course in Aboriginal people and the law, which includes the history and legacy of residential schools, the *United Nations Declaration on the Rights of Indigenous Peoples*, Treaties and Aboriginal rights, Indigenous law, and Aboriginal-Crown relations. This will require skills-based training in intercultural competency, conflict resolution, human rights, and anti-racism.
29. We call upon the parties and, in particular, the federal government, to work collaboratively with plaintiffs not included in the Indian Residential Schools Settlement Agreement to have disputed legal issues determined expeditiously on an agreed set of facts.
30. We call upon federal, provincial, and territorial governments to commit to eliminating the overrepresentation of Aboriginal people in custody over the next decade, and to issue detailed annual reports that monitor and evaluate progress in doing so.
31. We call upon the federal, provincial, and territorial governments to provide sufficient and stable funding to implement and evaluate community sanctions that will provide realistic alternatives to imprisonment for Aboriginal offenders and respond to the underlying causes of offending.
32. We call upon the federal government to amend the Criminal Code to allow trial judges, upon giving reasons, to depart from mandatory minimum sentences and restrictions on the use of conditional sentences.

33. We call upon the federal, provincial, and territorial governments to recognize as a high priority the need to address and prevent Fetal Alcohol Spectrum Disorder (FASD), and to develop, in collaboration with Aboriginal people, FASD preventive programs that can be delivered in a culturally appropriate manner.
34. We call upon the governments of Canada, the provinces, and territories to undertake reforms to the criminal justice system to better address the needs of offenders with Fetal Alcohol Spectrum Disorder (FASD), including:
 - i. Providing increased community resources and powers for courts to ensure that FASD is properly diagnosed, and that appropriate community supports are in place for those with FASD.
 - ii. Enacting statutory exemptions from mandatory minimum sentences of imprisonment for offenders affected by FASD.
 - iii. Providing community, correctional, and parole resources to maximize the ability of people with FASD to live in the community.
 - iv. Adopting appropriate evaluation mechanisms to measure the effectiveness of such programs and ensure community safety.
35. We call upon the federal government to eliminate barriers to the creation of additional Aboriginal healing lodges within the federal correctional system.
36. We call upon the federal, provincial, and territorial governments to work with Aboriginal communities to provide culturally relevant services to inmates on issues such as substance abuse, family and domestic violence, and overcoming the experience of having been sexually abused.
37. We call upon the federal government to provide more supports for Aboriginal programming in halfway houses and parole services.
38. We call upon the federal, provincial, territorial, and Aboriginal governments to commit to eliminating the overrepresentation of Aboriginal youth in custody over the next decade.
39. We call upon the federal government to develop a national plan to collect and publish data on the criminal victimization of Aboriginal people, including data related to homicide and family violence victimization.

Principles of Reconciliation

The Truth and Reconciliation Commission of Canada believes that in order for Canada to flourish in the twenty-first century, reconciliation between Aboriginal and non-Aboriginal Canada must be based on the following principles.

1

The *United Nations Declaration on the Rights of Indigenous Peoples* is the framework for reconciliation at all levels and across all sectors of Canadian society.

2

First Nations, Inuit, and Métis peoples, as the original peoples of this country and as self-determining peoples, have Treaty, constitutional, and human rights that must be recognized and respected.

3

Reconciliation is a process of healing of relationships that requires public truth sharing, apology, and commemoration that acknowledge and redress past harms.

4

Reconciliation requires constructive action on addressing the ongoing legacies of colonialism that have had destructive impacts on Aboriginal peoples' education, cultures and languages, health, child welfare, the administration of justice, and economic opportunities and prosperity.

5

Reconciliation must create a more equitable and inclusive society by closing the gaps in social, health, and economic outcomes that exist between Aboriginal and non-Aboriginal Canadians.⁴ • Truth & Reconciliation Commission

6

All Canadians, as Treaty peoples, share responsibility for establishing and maintaining mutually respectful relationships.

7

The perspectives and understandings of Aboriginal Elders and Traditional Knowledge Keepers of the ethics, concepts, and practices of reconciliation are vital to long-term reconciliation.

8

Supporting Aboriginal peoples' cultural revitalization and integrating Indigenous knowledge systems, oral histories, laws, protocols, and connections to the land into the reconciliation process are essential.

9

Reconciliation requires political will, joint leadership, trust building, accountability, and transparency, as well as a substantial investment of resources.

10

Reconciliation requires sustained public education and dialogue, including youth engagement, about the history and legacy of residential schools, Treaties, and Aboriginal rights, as well as the historical and contemporary contributions of Aboriginal peoples to Canadian society.

The following pages outline the Commission's central conclusions about the history and legacy of residential schools and identify both the barriers to reconciliation and the opportunities for constructive action that currently exist.

Saskatoon Reconciliation and Indigenous Initiatives

- Collaborated with Saskatoon Tribal Council (STC), Gabriel Dumont Institute (GDI), the United Way, and other organizations in various initiatives to promote dialogue on reconciliation and Aboriginal inclusion including the 2014 Kitaskinaw Project (Kitaskinaw) and the Urban Aboriginal Community Gathering (Gathering).
- Aboriginal Cultural Awareness Training is offered to all City employees and is mandatory for Saskatoon Police Service (SPS) employees.
- Corporate and community initiatives were developed in 2015 by our Race Relations and Cultural Diversity Committee and Coordinator to reduce racism.
- The City's Senior Management participated in a Duty to Consult information session.
- Employees are incorporating more consultations and engagement with Aboriginal people in planning and program development.
- The City provided a "Profile Saskatoon Grant" of \$150,000 and in-kind organizing support for the 2016 World Indigenous Business Forum (WIBF) and International Indigenous Music and Cultural Festival to be held in Saskatoon.
- The Director of Aboriginal Relations co-chairs the Saskatoon Regional Intersectoral Committee (SRIC)'s Saskatoon Aboriginal Employment and Economic Partnership (SAEP) Committee with Aboriginal organizations, other governments, Saskatoon Regional Economic Development Authority (SREDA), training institutions, and other service providers to increase Aboriginal employment.
- The City partners with STC, GDI and other organizations on the delivery of the Urban Aboriginal Leadership Program to build capacity leading to employment.
- The City continues to champion and model implementing the TRC Calls to Action by working with community partners to ensure the City contributes to the collective movement. In doing so, the City collaborates and invests in initiatives like the annual Wicihitowin Indigenous Engagement conference, Rock Your Roots Walk for Reconciliation, Reconciliation Saskatoon Stewardship Committee and various Action Groups.
- A Pilot Project with Office of the Treaty Commissioner (OTC) on Reconciliation Action & Measurement in order to assess progress and where the City is at with respect to reconciliation; identify gaps and increase the impact of the work. It will play a vital role on how Administration reports annually to City Council on the outcomes.
- As part of the OTC work, a community of practice (CoP) was established with 23 staff from various departments, as well as Saskatoon Police Service and Saskatoon Public Library. Data about the City's current efforts to advance truth and reconciliation was collected and analyzed, according to an OTC-developed methodology called the Growth Model.

- A new (2020) Director of Indigenous Initiatives position to continue to provide leadership to support the City's journey of reconciliation, develop strategies and activities that support and enhance an inclusive workplace for Indigenous people, and lead the development of short and long terms strategies relating to the TRCs Calls to Action and the Missing and Murdered Indigenous Women and Girls, Two-Spirit Calls for Justice.
- 21st Street Bike Rack Project - The City of Saskatoon Urban Design Team has undertaken projects to reinforce and renew 21st Street's historic character and to celebrate Saskatoon's rich Indigenous history. One such project is the installation of bicycle racks that display Treaty Six Territory and Homeland of the Métis medals.
- Official Community Plan redesign. The process of reviewing the OCP from an Indigenous perspective and the care taken to ensure Saskatoon's commitment to reconciliation is accurately reflected in the City's primary city building document provides a framework for the City's long journey towards reconciliation.
- Implementing Memorandums of Understanding and Partnership Agreement with the Saskatoon Tribal Council Prosperity through Reconciliation Partnership Agreement and with the Saskatchewan Indian Institute of Technologies.
- Indigenous Initiatives Intern - Through a Work Experience Partnership with Gabriel Dumont Institute Training and Employment program, the Indigenous Initiatives Department was able to bring on a recent graduate. The position will be extended for an additional six months through a partnership agreement with the Saskatoon Indigenous Community Action Partnership.
- Saskatoon Survivors Circle - The Saskatoon Survivors Circle (SSC) was created by Survivors of the government run Indian residential schools in Saskatoon and area to create a safe space to connect with other survivors, share stories, foster a sense of community, while promoting wellness, inclusion and cultural protocols and teachings. Members of the SCC have been called upon by community groups and agencies to participate as advisors and speakers on topics regarding reconciliation. Elders and Survivors are key contributors to the work the Indigenous Initiatives Department does throughout the City. The Indigenous Initiatives Department continues to work with the SSC to provide and build capacity with respect to grant writing and administration. During the onset of COVID-19, the Indigenous Initiatives Department worked with local funding agencies to equip this group with 28 iPads to ensure Elders and Survivors can stay connected in a safe virtual environment, continue to meet and provide services, limit social isolation and increase wellness throughout the pandemic.
- Reconciliation Saskatoon - The City continues to co-chair Reconciliation Saskatoon, which is a collective of 115 community-based organizations, businesses, and non-profit faith-based groups that meet to provide education and learning opportunities on reconciliation. In 2019, an **Truth and Reconciliation Commission of Canada** evaluation of the City's response to the TRC Calls to Action was conducted, and recommendations were made in the "Pathway Forward Report." A Stewardship Committee was created to assist in the transition and implementation of the recommendations coming out of the Report. Members of the Stewardship Committee are

Saskatoon Public Library, The Children's Advocate, Saskatchewan Polytechnic, Office of the Treaty Commissioner, and the City. The Stewardship Committee is guided by Survivors and Knowledge Keepers to ensure their voices are heard, respected, and insights are incorporated in ongoing reconciliation initiatives. Another recommendation from the Pathway Forward Report was to create small working groups of people focused on fostering action in specific areas of reconciliation. In the fall of 2020, the following Action Groups were created: Business; Youth & Families; Two-Spirit Education; Book Club; and Newcomers.

- Wicahitowin Indigenous Engagement Conference - The City provides significant financial and human resource support to the very successful annual Wicahitowin Indigenous Engagement Conference. The 6th Annual Conference, themed Through the Fire, held in October 2020 had just under 1,000 people registered, with a number of virtual attendees located in communities around the world. In addition to hosting a number of residential school survivors, sectors represented by those registered include: Indigenous, Federal, Provincial and Municipal Governments, education and post-secondary education sectors, health sector, non-profit sector, unions and labour sector, and the business and economic development sector.
- Indigenous Engagement - Despite COVID-19, the Indigenous Technical Advisory Group continues to see increasing interest from various project managers and departments to meet with them to seek advice and review projects as well as provide advice on approaches for further engagement. In addition, the number of City projects requiring advice on Indigenous engagement is increasing. Engaging with local Indigenous individuals, organizations, communities and leaders is critical to maintain our commitment to improving the quality of life of residents of Saskatoon and to continue responding to the TRC Calls to Action #43 and #53.
- Chief Mistawasis Bridge naming initiative - Responding to the TRC Call to Action #79, the City undertook an unprecedented community-driven naming process for the originally named North Commuter Parkway / now named Chief Mistawasis Bridge.

1. 2022 Public Art Commission (RPT 22-84)

Written by: Community Services Advisory Committee

This plan included saving a significant portion of the annual budget allocated to the public art reserve for the commission of a major public artwork created by Indigenous Artist Mary Longman. Mary Longman was born in Fort Qu'Apelle, Saskatchewan and is a Saulteaux band member from Gordon First Nation. Her education includes a four year Fine Arts Diploma, a Masters in Fine Art and a Ph.D. in Art Education. She is an established artist who has been exhibiting nationally and internally for the past thirty years and has received several awards. Mary's biographical statement is attached to this report. You can also review her work on her website at www.marylongman.com.

The City of Prince Albert contracted Mary Longman to submit a proposal for the major public art commission for The City in 2021. The Public Art Working Group reviewed the proposal, met with Mary and toured the site for the artwork (Scarrow Plaza/Park), discussed design concepts and recommended "Passage Home". We researched opportunities for grants for the artwork/artist and coordinated a meeting with Canada Council for the Arts.

In the Fall of 2021 Mary applied for a Canada Council for the Arts grant, Short-Term Projects component of the Creating, Knowing and Sharing: the Arts and Cultures of First Nations, Inuit and Metis Peoples Program of \$100,000, with The City's support. The grant was awarded in early 2022 for the full amount requested. This grant will cover approximately 45% of the total cost of the creation of the artwork "Passage Home" including contractors, an apprentice Artist, an Elder, landscaping and benches, installation, a plaque describing the artwork, communications, and the unveiling ceremony.

PROPOSED APPROACH AND RATIONALE:

This is a very exciting commission for our City. The artwork "Passage Home" is described in the attached proposal. The Public Sculpture and Healing Garden will be a memorial site dedicated to Indigenous children of day schools, Residential Schools, and Sixties Scoop.

"The sculptural installation, *Passage Home*, is a memorial and commemoration to Indigenous children, who died away from home and those who are still finding their way back home, as a result of day schools, Residential Schools, and the Sixties Scoop. The work commemorates survivors who are still grieving and healing today.

The bronze sculpture, of a traditional travois carrier, symbolically offers a safe passage for children to return to their families and territories of origin and to rest in peace. The healing garden surrounding the work offers a place of beauty and privacy for reflection, grieving, and prayer.

Indigenous peoples of the Plains transported their children and belongings in an akotâpân (travois), originally pulled by an atim (dog) and later by a misatim (horse). The akotâpân typically had bison furs inside, which gave children a soft place to sit. The structure of an akotâpân consisted of two lodge poles as the main triangular frame that was attached with a rope at the sides of the saddle or crossed over each other at the head of the horse. The seat was made of branches or woven thongs of hide that was attached to the lodge poles with hide rope. Sometimes the seat would be enclosed with a circular willow frame, like a carriage, to protect young children, or it would be open with a child secured to the seat."(Mary Longman Proposal, August 28, 2021)

“Passage Home” will be a meaningful addition to the public art in our City. Its installation location in Scarrow Plaza/Park helps to activate and enhance this park space. Its proximity to the Riverbank and the “Sisters in Spirit” monument/artwork creates a place for reflection, ceremonies and events. The view of the artwork from the E.A. Rawlinson Centre for the Arts second floor was considered in the site plan and artwork size, and will provide a beautiful view of this important public artwork for our community.

“Passage Home” responds to the Truth and Reconciliation Call for Action #83 for Canada Council for the Arts to establish a strategy for Indigenous and non-Indigenous artists to undertake collaborative projects and produce works that contribute to the reconciliation process. It also addresses Call to Action #79 which speaks to commemoration.

The timeline for the project is as follows:

January 1-May 30: Artist builds work and delivers to foundry
 May 30-June 15: Foundry makes molds and casts bison robe first. Artist goes to foundry to hand paint moccasins.
 May 30-September 24:
 Foundry completes casting, patina, and welding.
 Scarrow Plaza/Park maintenance
 Scarrow Plaza/Park landscaping
 September 25: Foundry delivers work. Installation.
 September 30th: Unveiling on National Day for Truth and Reconciliation

Public Sculptural Installation Proposal: City of Prince Albert

Submitted by Mary Longman, August 28, 2021

Stump Horn's Family 1889, Cheyenne. Detail

Girl on Horseback with Infant in Cradleboard and Travois Cage with Two Children Inside, and Three Girls Nearby. Smithsonian National Museum of National History. NAA INV 00389200. Photographer: Barthelmess, Christian.

PASSAGE HOME

The sculptural installation titled, *Passage Home*, is memorial and commemoration to Indigenous children, who died away from home and those who are still finding their way back home, as a result of day schools, residential schools and the Sixties scoop. The work commemorates survivors who are still grieving and healing today. The bronze sculpture, of a traditional travois carrier, symbolically offers a safe passage for children to return to their families and territories of origin and to rest in peace. The healing garden surrounding the work offers a place of beauty and privacy for reflection, grieving and prayer.

It is an honoring of the past four generations of Indigenous children, who have been taken from their parents and forced to attend government mandated schools or were placed in foster homes. In these schools and residences, many of them experienced parallels of abuse; dehumanizing cruelty, physical and sexual abuse, exploitation for child labor, malnutrition, and neglect of their health and medical needs. The long-term trauma these children faced was significant and sadly, thousands died across Canada.

For survivors of day schools, residential schools and the Sixties Scoop, the healing journey is on-going, given the long-term trauma that resulted in complex post-traumatic stress disorder. Some parents are still grieving their missing children who never came home. The most lasting psychological damage for survivors is the fact that these children grew up with no love or nurturing, which is critical for healthy development. No child should ever have to experience this. Many today are still healing, learning how to love themselves, and learning how to take their rights and power back. Fellow survivors, the Indigenous community, and allies, stand with them in support of their healing.

This work is a call to action of Truth and Reconciliation, for the federal government to end the dark legacy of mass apprehensions of Indigenous children immediately by transferring Child Protection funds to newly created Indigenous Child Protective Services, that is operated by Indigenous professionals, in each province.

Overall, *Passage Home* will be one of Canada's first memorial sites dedicated to Indigenous children and provide a place for the public to acknowledge this history and memorialize innocent lives lost.

Historical Background of Day Schools, Residential Schools and Sixties Scoop

Since the 1830s, the government had sanctioned the mandatory mass apprehension of three generations of Indigenous children for attendance at Indian Day Schools and Residential schools. The fourth generation of mass apprehension is the Sixties Scoop by the Child Welfare system that began in the 1950s and is still occurring at a high rate today, especially in Saskatchewan.

Indigenous day schools and residential schools were solely intended to assimilate Indigenous children into western culture and religion and to forcefully replace, displace Indigenous culture. Mandatory Indian Day schools ran from 1860s to 1990s, with 700 day schools across Canada. Residential schools were full-time boarding residencies of 10-12 months a year, which began in the 1830s through to 1996. Schools were federally funded and operated by religious groups such as Grey Nuns, Roman Catholic, Anglican, United, Protestant and Presbyterian churches.

The Child Welfare system continues to remove Indigenous children from their homes at an alarming rate of 70-80% of all children in foster care, even though the Indigenous population in Canada is only 3-5%. At the height of the Sixties Scoop, many children became permanent wards of the courts and spent their entire childhood in foster care without visitations from parents, while others were sold to adoption agencies and dispersed to other countries.

Background of the Travois (Akotâpân or Yîkihtawitâpân)

Indigenous peoples of the Plains transported their children and belongings in an akotâpân (travois), originally pulled by an atim (dog) and later by a misatim (horse). The akotâpân typically had bison furs inside, which gave children a soft place to sit. The structure of an akotâpân consisted of two lodge poles as the main triangular frame that was attached with a rope at the sides of the saddle or crossed over each other at the head of the horse. The seat was made of branches or woven thongs of hide that was attached to the lodge poles with hide rope. Sometimes the seat would be enclosed with a circular willow frame, like a carriage, to protect young children, or it would be open with a child secured to the seat.

Sculpture Specifications

The work, *Passage Home*, will be cast in bronze by the Fafard Foundry, previously owned by the late Joe Fafard and now managed by Joe's nephew, Phillip Tremblay who has 35 years' experience. Given the foundry's long-term expertise in patinas, this work will be unique with two types of coloring; standard contrasting patinas for the poles and bison robe, and the children's moccasins will have translucent powder coating coloring for beaded designs. The bison robe will be wrapped like a papoose child carrier. The travois is resting on a boulder to connote a final resting place and aesthetically creating movement and dynamic upwards to the sky. The work faces the river. The dimensions of this work are: Poles: L-15' x W -6' Seat base: W- 5'x 3.5' x H-4.' See sculpture specifications below and attached jpeg image for fine detail of *Passage Home*.

Site Specifications: Landscape Installation

The site location is located at Sorrow Plaza, Prince Albert, which is an empty lawn lot located between River St. W and 11St W. The lot faces the North Saskatchewan River, and is beside the Saskatchewan Provincial Court and backs on to EA Rawlinson Centre for the Arts and the Mann Art Gallery. The site location is frequented by Indigenous locals and historically, the river was a route of passage. I would like to have a small educational bronze plaque near the pathway with a brief description and a Q code for further information.

The proposed landscaping of benches, trees and path is a critical aspect of this installation in order to provide a literal passage and private, beautiful space for reflection and prayer. See attached jpeg of site specifications for larger image.

Significance and Impact

The sculptural installation is highly significant given it is one of the first in Canada dedicated to Indigenous children of day schools, residential schools, and the Sixties Scoop. It is hoped that other Indigenous groups from Saskatchewan and Prairie Provinces of Manitoba and Alberta will also mount this memorial sculpture installation in their urban centers for extended public access.

The overall impact of this memorial site is that the work will be a concrete acknowledgment of this history and truly reflect that Indigenous children's lives matter. The site will also provide Indigenous people and the public a place to go to memorialize the children. The work will be an important acknowledgement to survivors and be meaningful to their healing journey. Lastly, *Passage Home* will serve as an important educational monument for school groups of all ages.
