RE: 2025 Watermain Relining – 4th Avenue West (River - 13th St)

The City of Prince Albert Public Works Department would like to advise businesses and residents that 4th Avenue West (River - 13th Street) is scheduled for a Capital Utility & Paving Project during the 2025 Construction season.

Project Details - Watermain Rehabilitation:

The scope of the project includes the relining of 141 meters (Outlined in **Red**) of 200mm diameter Cast Iron Watermain (1911) with a structural liner, bringing the main to a like new condition without the need to excavate the roadway along the entirety of the pipe length. The watermain rehabilitation portion of this project will take approximately 1 month to complete. During this time access to River Street and 13th Street will be available from 3rd and 5th Avenue West. Above ground water will be provided to all property owners at times when water cannot be provided through the watermain. Driveway and lane access along the Avenue may not be possible at times during this project.

In conjunction with watermain relining, 12th Street West (4-5 Avenue) will be conventionally excavated and a new PVC watermain will be installed (Outlined in **Green**). An additional notice will be provided to residents to identify the scope and impact of this project.

Project Details - Road Rehabilitation:

Upon completion of the watermain relining and watermain replacement, roadway rehabilitation will take place. This includes asphalt milling, paving and select concrete repairs. A notice will be provided to residents in the coming weeks to present further details regarding the roadway rehabilitation portion of this project.

A follow up letter will be provided two weeks prior to construction to provide additional details on the project, scheduling and construction zones. For a list of projects identified for paving and utility replacements, please visit <https://www.citypa.ca/en/parking-streets-and-transportation/capital-projects.aspx>.

If you require further information with respect to this matter, please do not hesitate to contact Public Works at (306) 953-4884.

Yours truly,

Evan Hastings, B.Sc., C.E., EIT
Capital Projects Manager
