RE: 2026 - Roadway Rehabilitation Program

The City of Prince Albert Public Works Department advises that roadway construction is planned in front of your business during the 2026 construction season. At this time, your project is anticipated to begin in July or later and will require temporary road closures that may affect access to your property.

Project Details:

The construction project may include:

- Milling and repaving of the existing roadway surface
- Reconstruction of the underlying road structure where required
- Replacement of concrete curb and sidewalk in select locations

Following completion of construction, any disturbed landscaping will be restored.

To assist with planning your business operations, a detailed follow-up notice will be provided in late May. This notice will outline anticipated construction impacts to your business and the roadway, including traffic management, access considerations, and other relevant information.

Businesses with specific operational requirements are encouraged to contact the project team in advance so accommodations can be considered where feasible.

For a full list of projects included in the 2026 Road Rehabilitation Program, and more information about work near your property, please visit: www.citypa.ca/capital-projects/

If you require further information with respect to this matter, please do not hesitate to contact Evan Hastings, Capital Projects Manager, Public Works at (306) 953-4884.
