From: Bob Coffin

Re: Application letter for naming field after Wendell Whitter

Hi Jody: I started working on this application and gathering letters of support in 2018. Life happened and I did not get everything together until I moved to Saskatoon in February, 2021. I received emails and a number of phone calls in support of the idea of naming the field when I put out the idea to the PAMFA family. There are others like Anna Rybka and Mike St. Amand plus the present day executive who have provided verbal support for the idea and if you require more letters of support I'll contact all of them. The conversations I have had with River Rider alumni were very touching and I have included emails I received from a couple of them.

Please let me know if there is any more information you need or if a member of the PAMFA needs to come to a meeting to make a presentation. I will drive up from Saskatoon or Anna or Taras would gladly come to do this.

I hope this note finds you and yours safe and healthy. Take care Jody.

Thanks.

Community Services
For review & report

Date: March 14, 2022

To: Mr. Jody Boulet
Director
Community Services Department
City of Prince Albert

From: Bob Coffin
President
Prince Albert Minor Football Association (PAMFA)

Re: Application for naming of field between John Diefenbaker School and Crescent Heights Arena in memory of Wendell Whitter.

Mr. Boulet, on behalf of the Prince Albert Minor Football Association, I am applying to the Community Services Department for permission to name the Football/Soccer field located between John Diefenbaker School and Crescent Heights Arena "Wendell Whitter Field" in memory of a man who spent countless hours on that field as a football coach working with the youth of Prince Albert and area.

Wendell Whitter passed away suddenly on July 13, 2018, and naming the field in his memory would provide a lasting reminder, present for generations to come, honouring his many contributions to local youth.

Wendell was born and raised in Prince Albert. Personally, he was active in as many sports as possible while he was growing up but football became his passion. When his son, Kristian, started playing football at Carlton High School Wendell began acting upon his interest in the sport as the Carlton equipment manager. Then he started to attend coaching clinics and gained certification in order to enter the coaching ranks. The Prince Albert Minor Football Association (PAMFA) started a Peewee Kinsmen League football team in 2008 and Wendell volunteered to be the head coach. Over the next ten years Wendell was a PAMFA Executive member acting as Vice - President of the PAMFA at the time of his passing. He also filled the roles of coach, team manager and as a mentor for a number of assistant coaches. Wendell coached Spring and Fall Peewee football and he initiated and coached the PAMFA Indoor Football Program.

Wendell was a key contributor to the PAMFA programs which were recognized in 2018 as an inductee into the Prince Albert Sports Hall of Fame as Sports Organization of the Year. As well, the 2018 "BOB" award was presented to the PAMFA as a community sports organization of significance. Wendell was to be

inducted into the Prince Albert Sports Hall of Fame in 2019 but due to a number of circumstances the Sports Hall of Fame was unable to hold their awards ceremony until this year. Wendell will be inducted posthumously this spring on April 29, 2022.

Wendell spent countless hours as a volunteer in this community working as a contributor towards the betterment of opportunities and experiences for the citizens and youth of Prince Albert. He worked closely with families and youth to make these experiences as positive and rewarding as possible. Recognizing his selfless commitment of time and energy towards the goals of the PAMFA and citizens of Prince Albert by naming the field in his memory would be a fitting tribute to him.

Letters of support from various Prince Albert citizens for this application are also being submitted with this application.

Upon receiving approval from the City of Prince Albert for naming the field in Wendell Whitter's name, the Prince Albert Minor Football Association would take responsibility for the purchase and placement of a sign at the field. This action would meet the requirements of the bylaws for signage placed on City property. The sign would have the words "Wendell Whitter Field" printed on it.

If you require any more information please do not hesitate to contact me.

My email address is: boblcoffin@hotmail.com

My home address is: Apt. 303 -2305 Adelaide Street East, Saskatoon, SK. S7J 5H6

Thank you for your consideration of this proposal.

To Whom It May Concern

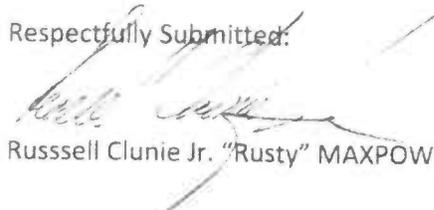

City of Prince Albert

I have been made aware of an initiative to rename a field near John Diefenbaker in honor of Mr. Wendell Whitter. The proposed ask and letter prepared by Mr. Bob Coffin has been circulated past me and I want to provide my own full support and push behind making this happen

I Rusty Clunie was one of the four founding members that pushed and worked to bring back minor football to the City of Prince Albert. As in anything it takes more then four individuals to actually make something happen and it requires a village to see it succeed and see it through. Wendell was one of these go to number one guys from the out set. Giving his time heart and passion to the football association and more importantly each and every child that came and participated. He committed hours and hours of his time to benefit all those around him he was truly a passionate man for this cause and worked tirelessly to insure it's success. Personelly my family has supported many initiatives in this community as well as the many business's I am involved in. Through it all I have learnt what a soul this City has and what a great community we live in. I really hope the City sees favour in the request presented by Mr. Coffin and we recognize the man and his commitment to this community by naming this field in his honor.

I applaud you Bob and the Association for bringing this forward and will do all I can do to see it thourgh to completion.

Respectfully Submitted:

Russell Clunie Jr. "Rusty" MAXPOWER

Re: Application for naming of football field in memory of Wendell Whitter

Dear Jody,

I would like to provide a letter of support in favor of naming the football field located between John Diefenbaker School and Crescent Heights Arena after Wendell Whitter.

I have known Wendell personally for 35 years and he has always been a kind and giving man, but it was only through my involvement with River Riders football club that I was able to learn how much Wendell has contributed to PA Minor Football as well as the junior and senior football programs of Carlton, and hundreds of young men and women have benefited from Wendell's work.

During the first year of River Rider minor football we operated with only a bantam team, and despite the enthusiasm demonstrated by all players and parents we discovered a pee wee team would be needed in order to provide the required preparation and training for the bantam players. But, the task of starting another team was daunting, so when Wendell stepped forward we were thrilled; and 10 years later not only was he still the key figure in the Pee Wee program but he was one of the key people with the entire PA Minor Football organization.

The importance of building a pee wee team to compliment the bantam team cannot be understated, and Wendell was the person to lead all parts of the pee wee program from coaching, recruiting, equipment, and administration. Not only did he lead us during the main fall season, but he led the teams during spring football and during the offseason camps for the Little Tykes program and indoor football.

Without the accomplishments and commitment of Wendell we would not have the program that we have today, and through the years his presence has provided the atmosphere where other coaches and volunteers have the confidence to step up and become part of the program as well. He had the skills to deal with players, other coaches, and parents.

The field which we are requesting be named after Wendell is where he spent the most time as a coach and volunteer, and I can think of no more appropriate tribute than to name this field "Wendell Whitter Field". Even though I am no longer active with PA Minor Football, I would be pleased to contribute in any way I can to this cause.

Yours Truly

David Thorpe
Former PA Minor Football Board Member and Coach.
davidt@thorpeindustries.ca

I think naming our PAMF practice field after Wendel Whitter is an excellent idea. I will be the first to admit that Wendel and I rarely saw eye to eye; however, that being said, he was a good man with a big heart and full of passion for the sport. Wendel wanted to see the best in each child on the football field. He tried with the tools he had to encourage each child to play to their potential. As a coach, I can sometimes see the potential in a player, but they suffer from low self esteem or lack of confidence. Trying to show the player that they are a valuable asset to the team can sometimes get the player to believe in themselves a little more, resulting in positive outcomes on the field. Wendel was able to do this, I believe he was teaching the kids lessons they might not have learned. He, and his voice will be missed on the field and naming it after him will be a little piece of him that is missing.

Mr. Jody Boulet, Director
Community Services Department
City of Prince Albert

Re: Application for field dedication in memory of Wendell Whitter

Dear Mr. Boulet,

My name is Lori Nelson. I am a registered nurse in our city and I had the pleasure of working with Wendell and Prince Albert Minor Football for 5 years. I assisted with first aid and training for our players and during this span of time, I got to know Wendell very well.

Wendell was a man not only passionate about football, but who also had a genuine love and desire for working with children. He took great pleasure in watching our young players progress through the years of River Riders, and had pride in the fact that several of them went on to play at college levels. As a parent, we put in our time with different organizations over the years, and we do so because of our children. Most of us move on when our child grows and moves on to other activities. Wendell's passion and dedication to the game kept him looking after all our children for many years.

During the few years I was involved with PAMF, I had many parents come to me and say what a great organization it was, making new parents feel welcome and including every child in equal play. I feel that Wendell was an intricate part of this, and his presence will be missed by all.

On behalf of every parent and player that experienced River Riders football, please consider dedicating our practice field in memory of a great mentor, leader, and friend, Wendell Whitter.

Sincerely,

A handwritten signature in black ink, appearing to read 'Lori Nelson', followed by the printed text 'RN, CDE'.

• You

Hello my name is Parker Teichreb. I am a RiverRider member since I was 10 years old, and now I'm 20. I want the crescent height football field to be name Wendell field. I knew Wendell since I was 10 till the days he left to a better place. Wendell was a man that showed care for each and every football player, no matter what it costed. Wendell was a coach that no only helped players on the field but also off the field. Wendell showed me what a man is. He showed me what it is to be a better person, he made me more Of a man than words can say. I loved Wendell as a coach, but also a friend. He's not like other coaches he's the coach who pulls you a side and helps you. Wendell is not one of the best football coaches, but the best coach you'll ever know. I'm glad I was able to meet him. And was glad to talk to him each and every day when I got to high school. Wendell has created a legacy, that no coach could do. He is more then a coach. He is always my hero, my mentor, and my family. I will miss him each day he's gone but I know he is inside each football player but his soul will live in that field for every player that steps on that field. Please take the time to consider to change the name to honor him. That decision will be the best you ever make. Rest in peace Wendell.

Thank you

• You

Hello Mr. Coffin,

I hope you are doing well, I wanted to send a letter in support of the movement for Wendell Whitter. Mr. Whitter was my peewee coach back when I played minor football for the P.A Riverriders. Mr. Whitter was a great person as well as an amazing coach, he brought numerous things to the table with his countless hours of coaching us, never missing a day, great attitude and great work ethic. Mr. Whitter taught me a lot of things in life as well as my football career to better myself on and off the field. I made great progression in my life and my football career and a great majority of it has to do with Wendell Whitter. He was a great man and an astounding coach he will be forever missed, this movement for naming the field after him has my full support I am honoured to hear of this and to call myself a Riverrider alumni. I would send a real letter but I am currently in Kingston Ontario for the Correctional Services of Canada training academy. Thank you for doing this project it is much appreciated.

Take care sir

December 25, 2019

To Whom It May Concern,

Our sons had the privilege of being coached by Mr. Wendell Whitter during their time with the Pee Wee program with the River Riders football program here in Prince Albert. Wendell worked tirelessly for the program and instilled, not only a love of the game of football, values of great sportsmanship and taking care of those around you. Wendell saw the best in all those that he worked with and strove to help develop as individuals. I feel that naming the field between Crescent Heights Arena and John Diefenbaker School would be a great way to remember a man that dedicated himself to making the world a better place for those that had the privilege of knowing Wendell.

Sincerely,

Sheldon and Shannon Hirschfeld

Prince Albert CRIME STOPPERS

P.O. Box 3076
Prince Albert, SK S6V 7M4

To: His Worship Mayor Greg Dionne and City Council
From: Crime Stoppers Board of Directors
CC:
Date: 04/28⁰⁴/2022
Re: Crime Stoppers Bumper Stickers

Your Worship and Council Members:

Prince Albert Crime Stoppers has existed in Prince Albert since June of 1995. Since that time, we have been successful in aiding the City of Prince Albert Police service with:

- Approximately 7,800 TIPS that have resulted in;
 - 785 arrests
 - 1,068 cases solved
 - Approximately \$592,000.00 in property recovered
 - Approximately \$350,000.00 in drugs seized
 - And paid out approximately \$40,000.00 in TIP REWARDS
- All the while being certain that our tipsters remained completely anonymous.

Crime Stoppers is a total volunteer, non-profit registered charity that is a tripartite arrangement between the media, the Prince Albert Police service, and the public which is represented by our Board of Directors. We, as an organization receive no government funding except donations that we request during fund raising events such as our annual golf tournament(which we have not been able to hold for the past two years).

Prince Albert Crime Stoppers belongs to the Association of Crime Stoppers Programs of Saskatchewan (ACSPS) which is an organization of the Crime Stopper Programs in Saskatchewan. The programs that belong to this organization are Regina, Saskatoon,

Prince Albert
CRIME 
STOPPERS

P.O. Box 3076
Prince Albert, SK S6V 7M4

Moose Jaw and the Saskatchewan Crime Stopper program operated by the RCMP. The ACSPS has been successful in negotiating with the Crown Corporations, Sasktel, Sask Power, and Sask Water to have a supplied bumper sticker installed on all of their corporation vehicles. In addition, Sask Energy is developing a licence plate holder with the Crime Stopper information on it for their vehicles at their expense, and the City of Regina and the City of Saskatoon vehicles all carry Crime Stopper information on their vehicles as does all of the RCMP vehicles.

My reason for asking to appear before Council is to request that the City of Prince Albert install a supplied bumper sticker to all of the city vehicles. Prince Albert Crime Stoppers will supply the bumper stickers. We believe that by advertising our anonymous TIP phone line, social media contacts on our city's vehicle will further help to have the public aid in solving crime in our city.

I thank you for your time and consideration of our request.

Dear Mayor & City Council,

Re: Request to place Monuments in Memorial Square

The Royal Canadian Legion previously submitted a letter dated September 20, 2021 requesting to place monuments in Memorial Square in honour of those who served in the Afghanistan War, Korean War and also for those who served as Peacekeepers.

The purpose of the proposed project is to preserve the knowledge and memory of what Veterans have sacrificed for Canada. To honour and recognize the Veterans, it is requested that six Monuments be placed in Memorial Square in close proximity to the Cenotaph which recognizes the Veterans of the Second World War. It is proposed that the Afghanistan War and Korean War will each have their own Monument with 4 smaller Peacekeepers Monuments to be installed. The Monuments will be back-lit so that they are visible 24 hours a day and produce striking images in remembrance.

A copy of the proposed placements in Memorial Square is attached. Also attached are sample Monuments under consideration. The goal of the Monuments is to depict images that are to be designed in consultation with the Legion/ANAVETS. The Afghanistan War Monument, Korean War Monument and 4 Peacekeepers Monuments are proposed to be installed in the raised West facing flower bed directly in front of City Hall. This location is in close proximity to the existing Cenotaph and power. The raised platform will improve visibility and reduce exposure during snow removal or grass cutting operations. Should this option not be approved, a 2nd option for consideration is at ground level adjacent to the Cenotaph. Copies of both proposed options are attached to this correspondence.

Also attached are sample renderings of the Monuments that we would like to install in Memorial Square. The attached Monuments are estimated to cost \$25,285.78. Some additional costs to introduce the lighting will be necessary to complete the project. The Legion has approved \$17,000 in support of the total amount required. In addition, a grant in the amount of \$12,285.78 has been awarded through Veterans Affairs Canada under their Commemorative Partnership Program.

As a result, we are respectfully requesting approval from City Council to install the Monuments in Memorial Square as attached. We are also requesting an opportunity to speak to this request at the May 2nd, 2022 Executive Committee meeting.

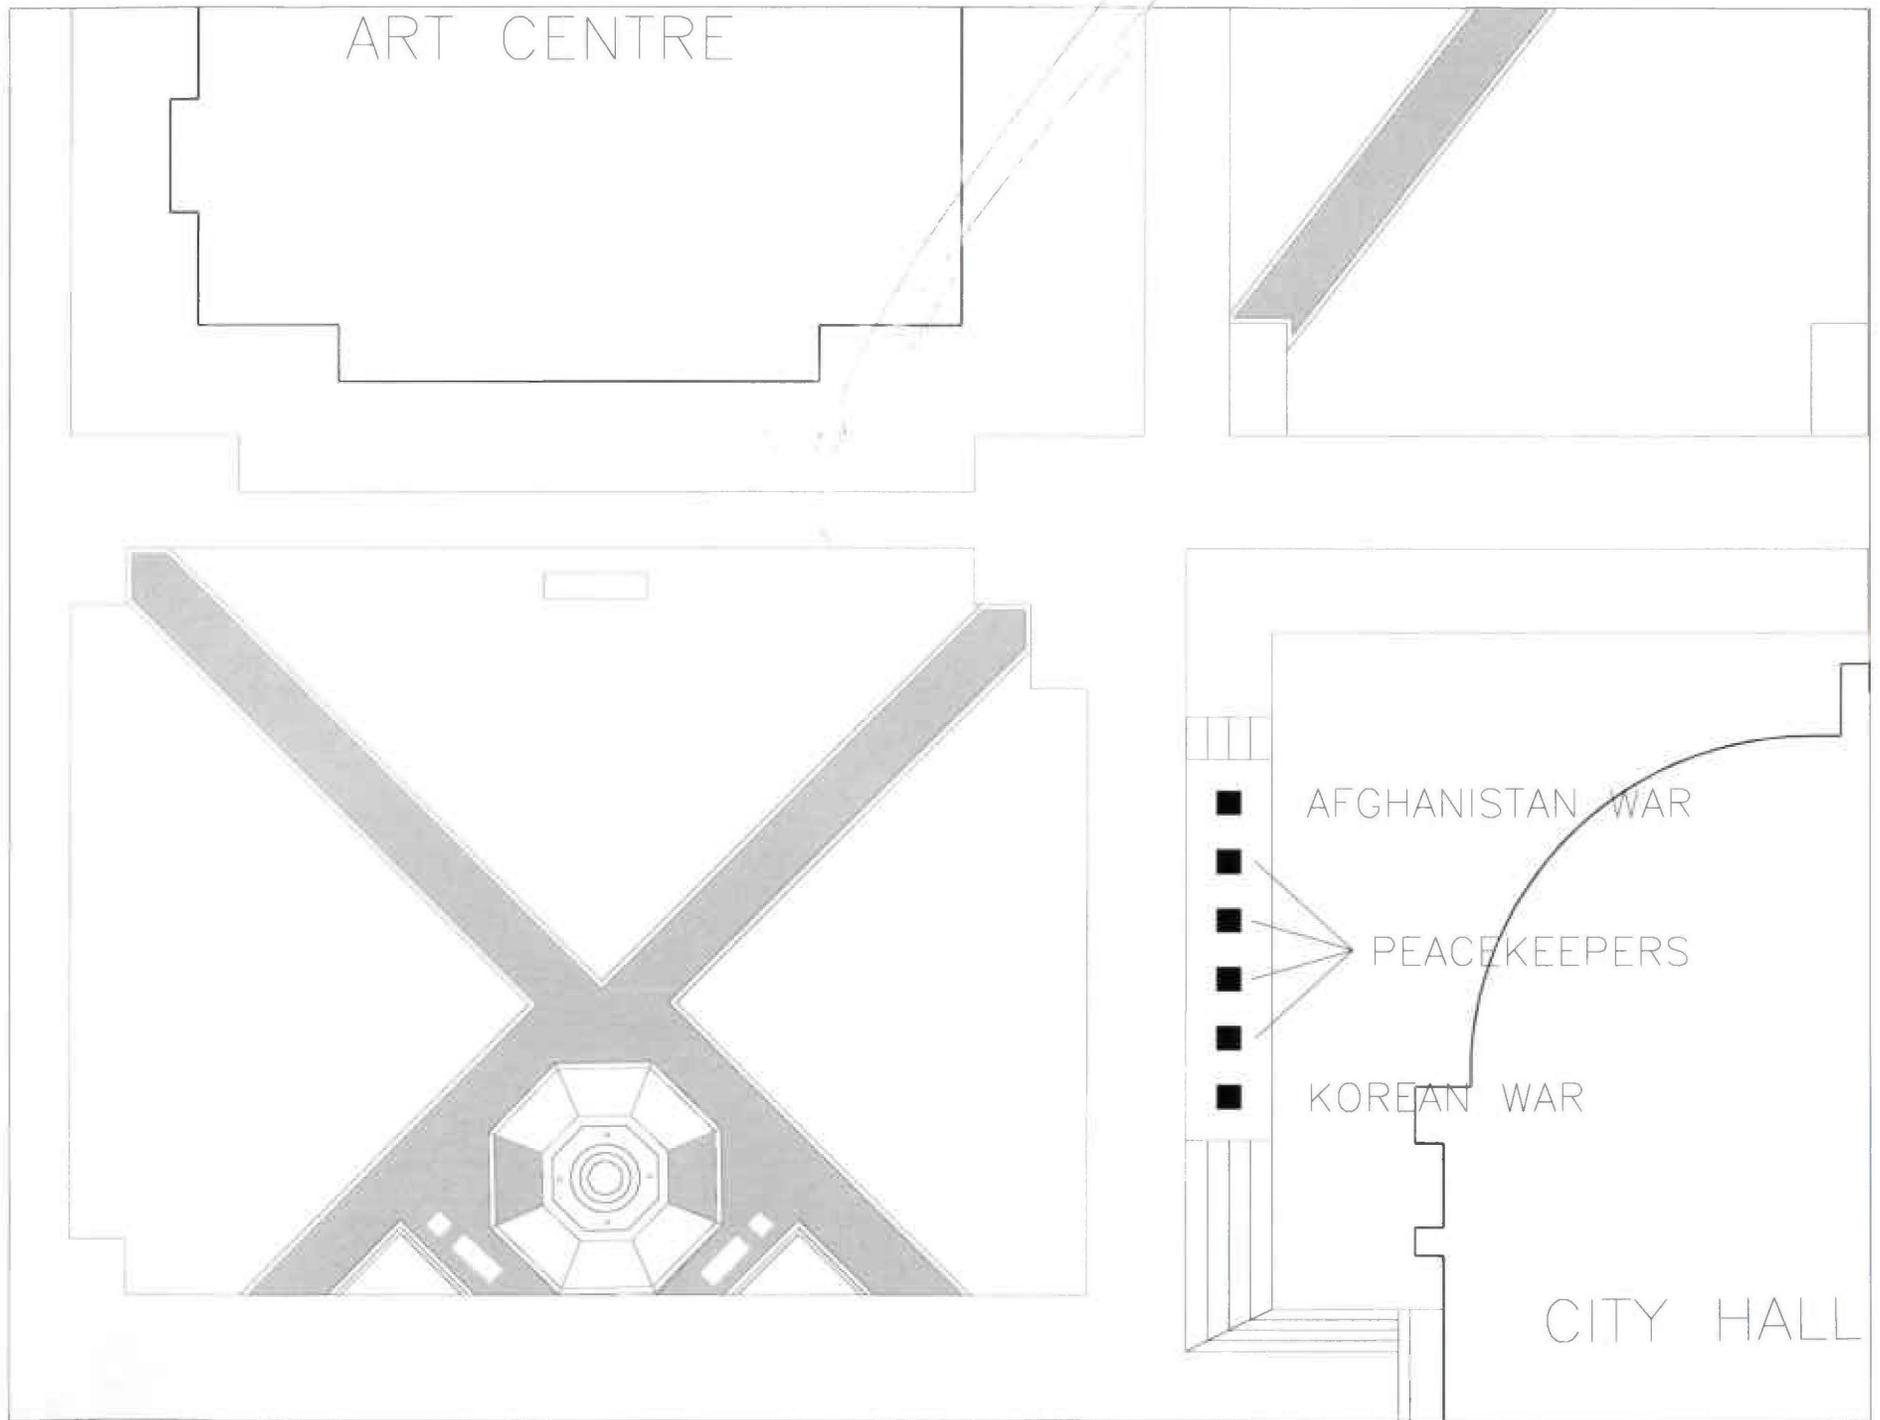

Sincerely,

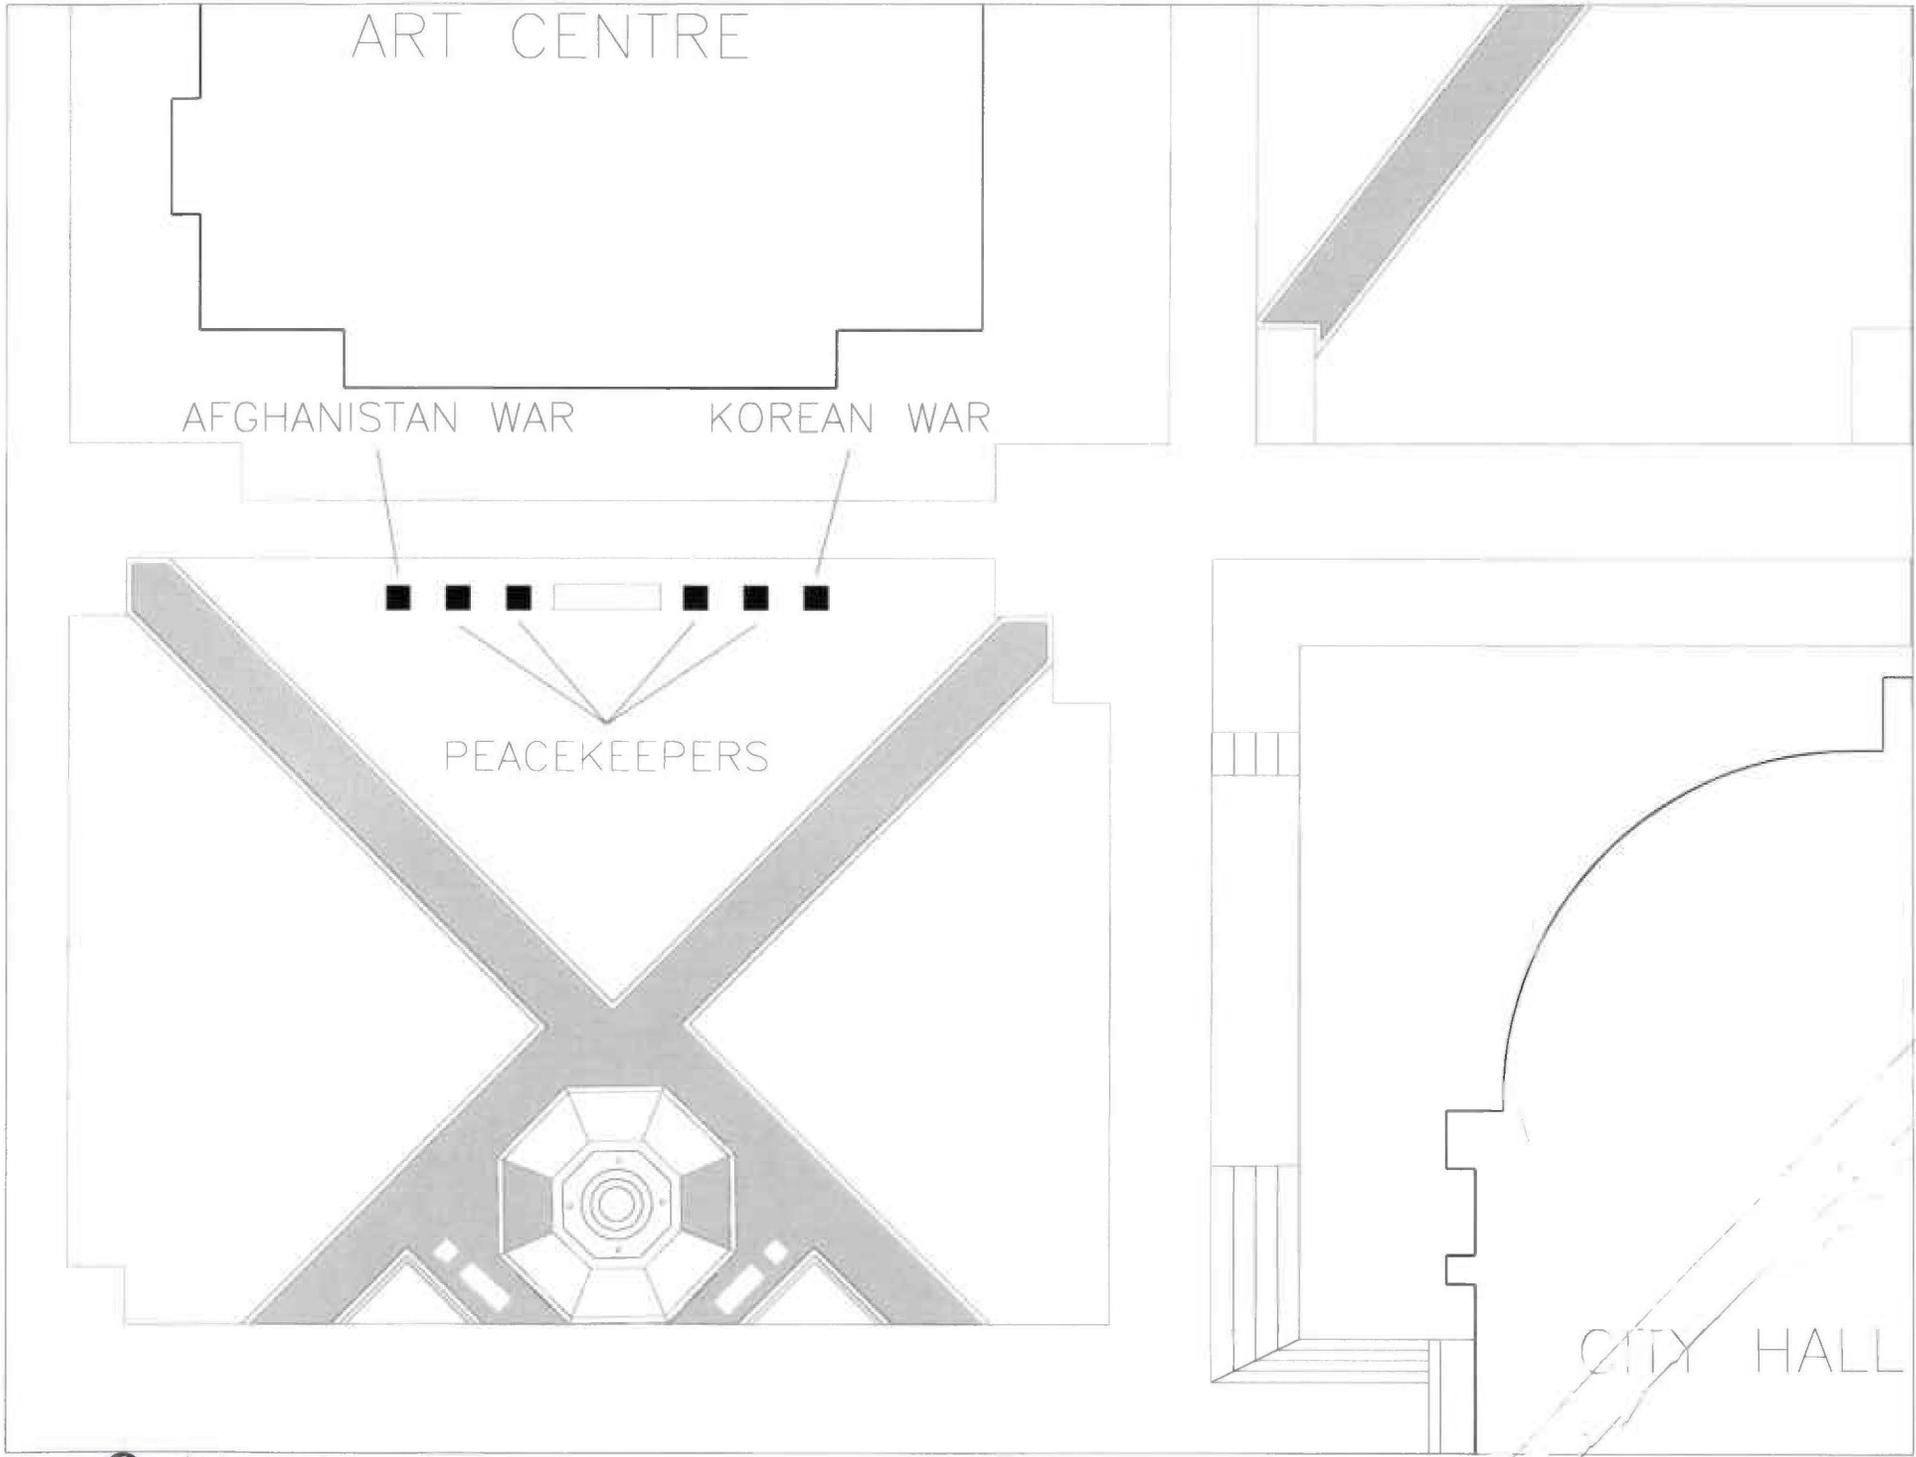

Rick Hodgson

Hello Craig:

I am unsure if this is the process for sending a letter to council. When I was going through the files I saw that Carolyn had sent a letter to City Council regarding the waiving of Bus Fares for the day of Street Fair. I have attached the letter for this years request. If I'm too early can you give me a time frame for this type of request. Thank you.

April 4th, 2022

Dear Mayor Dionne and City Councillors:

The PADBID wishes to thank the City of Prince Albert for your ongoing support of the Street Fair. This annual event will be held on Saturday, June 18, 2022. We anticipate a high volume of foot traffic from 10:00 am to 6:00 pm. We wish to request City Council's support with the waiving of bus fees for this day. This will give more people the opportunity to be a part of the event.

PADBID requests the City of Prince Albert waive bus fees for Saturday, June 18, 2022 and encourage all people in Prince Albert to take public transportation for the day.

PADBID hopes to encourage people to come downtown during this event with family and friends. There is no admission to the event and PADBID prides itself on promoting our history, culture, local talent and businesses.

The City of Prince Albert's support is essential to the continued success of this community event. Your continued support of the Prince Albert Downtown Business Improvement District helps the community have some fun and encourages people to enjoy what the business owners have to offer during this economic recovery time due to the COVID – 19 pandemic.

Thank you for your consideration.

Sincerely,

Rhonda Trusty

**RE: Notice of Discretionary Use Application
Nuvo Cannabis – Retail Cannabis Store**

The RM of Prince Albert has received an application for a Retail Cannabis store on Blk/Par M, Plan 67PA06327. Retail Cannabis stores are a discretionary use in an C2 – Highway Commercial District (Bylaw 5 of 2021)

Cannabis retail stores are a provincially licensed retail store where cannabis, cannabis products, and cannabis accessory items are sold.

The applicant has indicated their future plans for the property will include a micro cannabis production facility, to be considered by the RM at a future date.

This property is within the Future Urban Growth Area (FUGA), as designated within the Prince Albert Planning District Official Community Plan 2018. Pursuant to section 9.1 of the District OCP, this application is being referred to the City of Prince Albert for comments.

The RM will be considering this application at the upcoming RM Council meeting on April 14th, 2022.

If you have questions or concerns regarding this zoning amendment, or require further information, please contact me at 306-764-2751.

CITY CLERK

Executive Committee

April 19, 2022

To: All Mayors/Reeves and Members of Council

RE: 2022 Education Property Tax Mill Rates

The education property tax mill rates to be levied with respect to every school division and property class for the 2022 taxation year are as follows:

| | 2022 Mill Rates | 2021 Mill Rates | Difference |
|-----------------------|-----------------|-----------------|------------|
| Agricultural | 1.42 mills | 1.36 mills | 0.06 |
| Residential | 4.54 mills | 4.46 mills | 0.08 |
| Commercial/Industrial | 6.86 mills | 6.75 mills | 0.11 |
| Resource | 9.88 mills | 9.79 mills | 0.09 |

These rates are subject to formal approval by Order in Council in the coming weeks.

As in past years, municipalities will collect education property taxes and remit the revenue to the province, with the exception of municipalities with separate school divisions that set their own mill rates.

For the 2022 tax year, the following separate school divisions have passed bylaws indicating they will determine their own education property tax rates:

- Christ the Teacher RCSSD 212
- Holy Family RCSSD 140
- Holy Trinity RCSSD 22
- Light of Christ RCSSD 16
- Lloydminster RCSSD 89
- Prince Albert RCSSD 6
- Regina RCSSD 81
- St. Paul's RCSSD 20

... 2

[You don't often get email from rlaurachartier@hotmail.com. Learn why this is important at <http://aka.ms/LearnAboutSenderIdentification>.]

I live at 888 1st Avenue East and have been getting quite a few parking tickets. I have a disability and have a fixed income, I cannot afford a parking pass every month or to continue paying parking tickets. I believe that since this is a residential area we should have parking on the street available to us to use with no restrictions. Please contact me with any information that will help me further this action i.e who to address this concern to.

Thank you

April 25, 2022

Dear Mayor Dionne and council

I am enquiring about a possible solution to the parking lots at the three duplexes I own at Woodbridge Dr. from #2661 – #2705.

My tenants in these buildings are having some serious difficulties with the current parking system. I have suggested several alternatives to the staff in the planning department and have had no resolution so far.

I have also spoken to several councillors and was advised to speak to the city manager. I have had no response to the emails I have sent.

As this is now an urgent matter, I am bringing my problem to council in the hopes of finding a reasonable solution.

What I would like to do is pave or use concrete on the entire front of the three buildings. I have been told that according to the bylaw the concrete has to stop three feet from each property line.

If I can cover the entire front, the tenants have a much simpler parking system. Right now, the parking lot has multiple pot holes and soft spots and the cars are getting stuck.

As this is a serious issue for my tenants, I prefer to have a resolution as soon as possible.

Can you please put this on the Monday, April 25 meeting for consideration? I will be there in person to answer any questions you might have.

My neighbours in the condominiums adjacent have started complaining about the unsightliness and the tenants have made multiple complaints.

I have attached a photo for reference.

Dear Sir/Madam:

I am pleased to inform you that Saskatchewan Housing Corporation's (SHC) 2021 Annual Report is now available on our website: <https://publications.saskatchewan.ca/#/products/117583>

Over the years, SHC has responded to the diverse and evolving needs of Saskatchewan people. SHC aligns with the Government of Saskatchewan's direction by providing a range of housing programs and services to meet the needs of the clients we serve. As shown in this report, we have worked hard to improve access to more affordable, better quality housing for people in need across the province.

I am proud of our achievements and commend our Board, senior management, staff and Housing Authority network for their continued dedication to Saskatchewan residents.

I am confident that, together with our partners in the housing sector, SHC will continue to meet the housing needs of Saskatchewan people, both now and in the future.

Sincerely,

A handwritten signature in cursive script, appearing to read "Louise Michaud".

RPT 22-108

TITLE: Replacement of Lead Services (MOT 22-1)

DATE: April 26, 2022

TO: Executive Committee

PUBLIC: X

INCAMERA:

RECOMMENDATION:

That City Council receive and file information as provided on replacement of Lead (Pb) water service connections in Saskatchewan municipalities.

TOPIC & PURPOSE:

The purpose of this report is to outline the practices established in other Saskatchewan Municipalities in replacing lead water connections compared to the practice utilized in the City of Prince Albert including options for the City to assist in the homeowner replacement.

BACKGROUND:

Concerns brought forward from residents on 12th Street East during recent Street upgrades which included lead water service replacements have brought on discussions of how the City can do more to help the residents accomplish the complete upgrade of their lead contaminated services.

In 2010 there was an \$2,000 incentive program set up to provide financial assistance to homeowners to complete their portion of the upgrade, only 12 residents took advantage of the program over the course of three years.

Following the last report, #18-591, submitted in November of 2018, in an effort to communicate better, we have provided advance notice when locations are chosen to make the home owner aware we will be changing the service and recommend the private portion to be changed in conjunction. As well a short term notice is provided to the resident prior to replacement and a flushing procedure provided following completion of the upgrade. There is also a homeowner initiated program that was implemented, this is when a homeowner expresses interest in the

upgrade of their lead connection we ensure that the City portion of that connection is added to the yearly program.

As of June 2021 the City of Prince Albert initiated a new program to add orthophosphate at the water plant which claims an 80% reduction in lead leaching into the supply at a cost of \$30,000.

PROPOSED APPROACH AND RATIONALE:

Lead service replacements are ongoing in all municipalities due to clearly defined risks associated with drinking water contamination. As standards become tighter this process continues to be brought into discussion in efforts to expedite the replacement.

Other municipalities in Saskatchewan have varying requirements and options available to residents in an effort to rid the system of lead contamination. Most of these locations contract out all water main replacements and service upgrades

Regina - requires residents to change private portion when City completes the Street portion. A \$240 dollar administration fee is added to a five or ten year deferral of private costs and a lien is applied to the title.

Saskatoon – requires residents to change private portion when the City contractors complete the Street portion, with homeowner responsible for 40% of the total cost.

Moose Jaw – requires residents to change private portion when City completes the Street portion. A flat rate of \$8,450 is charged to the homeowner and can be applied to taxes for 7 years at 4% interest rate.

Battleford – Offers the residents to have City contractor to replace for a flat rate of \$1,000 when water main replacements are taking place on their street.

Calgary – has less than 500 remaining with intentions of completing all City portions by 2023. No private programs in place.

The City of Prince Albert has kept records on the services installed in the street for over a century but never collected private portion, from property line to the home, information. As they are replaced, through the yearly program records are updated, and administration have started to record what the private portion material is when excavated. There is no correlation between material types between the City and private portions.

Our records currently indicate 460 lead services remaining on City owned water connections. These are on occupied locations, vacant locations, as well as large lots with multiple services. Typically 10% of the yearly locations visited the service has already been upgraded and records were not. We now expose the connection in the boulevard prior to excavating to verify the material type and update records accordingly. Typically The City of Prince Albert replaces

20-35 lead services per year through the lead replacement and water main replacement programs, at our current pace all lead services will be replaced in 15 to 20 years.

FINANCIAL IMPLICATIONS:

The typical range for a private lead water service replacement in Prince Albert is from \$4000 to \$7500 plus any surface reinstatement encountered (sidewalks, tree, driveways, etc). This would translate into \$1.8 million to \$3.5 million assuming that there are the same number of private as City owned portions. Of these many are on vacant land, parking lots or already been upgraded without updating records.

Recent technology has made the replacement of water services less complicated. A water service can be replaced with no dig-technology by feeding a cable through the pipe and pulling the new water service into the trench with hydraulic assistance. There are risks associated with this process as well in that the line does not come out of the ground freely and the cable breaks. In these scenarios open cut excavation is required.

With the current budget we can change approximately 20 lead services per year at an average of \$20,000 per location. If the City was to complete the private portion at an estimated \$5,500 per location we would need to increase the yearly budget by \$110,000 to maintain the existing rate. This cost per location could be added to taxes or deferred over a number of years as determined by council.

The two main criteria for a resident program are whether to require the upgrade or provide an incentive to upgrade, and the extent of financial assistance.

CITY OF PRINCE ALBERT
GOLF COURSE ADVISORY COMMITTEE
REGULAR MEETING

MINUTES

THURSDAY, APRIL 7, 2022, 4:00 P.M.
MAIN BOARDROOM, 2ND FLOOR, CITY HALL

PRESENT: Mayor Greg Dionne
Brett Blakely
Rick Genest
Mel Keating
Jeff McKeand
Jackie Packet (Attended at 4:47 p.m.)
Vimy Penner

Savannah Price, Secretary
Jody Boulet, Director of Community Services

1. CALL TO ORDER

Mayor Dionne, Chairperson, called the meeting to order.

2. APPROVAL OF AGENDA

0007. **Moved by:** Penner

That the Agenda for this meeting be approved, as presented, and, that the presentations, delegations and speakers listed on the Agenda be heard when called forward by the Chair.

Absent: Councillor Cody and Jackie Packet

CARRIED

3. DECLARATION OF CONFLICT OF INTEREST

4. ADOPTION OF MINUTES

0008. **Moved by:** McKeand

That the Minutes for the Golf Course Advisory Committee Regular Meeting held February 7, 2022, be taken as read and adopted.

Absent: Councillor Cody and Jackie Packet

CARRIED

5. CORRESPONDENCE & DELEGATIONS

5.1 Priority Booking for 7-Day Season Passholders (CORR 22-36)

Verbal Presentation was provided by Jeff McKeand, Prince Albert Men's Golf Club.

0009. **Moved by:** McKeand

That Administration present three (3) models consistent with the requirement under the Annual Fee Setting Policy that provides alternate fee structure models within the 2023 Rates and Fees report being considered at the September 1, 2022 Golf Course Advisory Committee meeting.

Absent: Councillor Cody and Jackie Packet

CARRIED

6. REPORTS OF ADMINISTRATION & COMMITTEES

6.1 Golf Course Improvements (RPT 22-146)

Verbal Presentation was provided by Jody Boulet, Director of Community Services.

0010. **Moved by:** McKeand

That the following be forwarded to an upcoming City Council meeting for consideration:

1. That the Bunker Renovation Plan, as attached to RPT 22-146, be approved;
2. That a Request for Proposal be issued to select the contractor and confirm the funding allocation for the Bunker Renovation Project;

3. That the 2022 Golf Course Pathway Improvement Plan, as outlined in RPT 22-146, be approved; and,
4. That Administration forward the public report regarding the results of the Bunker Renovation Project Request for Proposal, to the Golf Course Advisory Committee for review prior to City Council's consideration.

Absent: Councillor Cody

CARRIED

7. UNFINISHED BUSINESS

8. ADJOURNMENT – 5:29 P.M.

0011. **Moved by:** Penner

That this Committee do now adjourn.

Absent: Councillor Cody

CARRIED

CARRIED

5. CORRESPONDENCE & DELEGATIONS

6. REPORTS OF ADMINISTRATION & COMMITTEES

6.1 Destination Marketing Fund Grant – Final Report Form – 2022 Dance Blast – Performing Arts Warehouse Dance Team (RPT 22-163)

Verbal Presentation was provided by Melodie Boulet, Administrator, Destination Marketing Fund.

0012. **Moved by:** Councillor Cody

1. That the Final Report Form from the Event of the Performing Arts Warehouse Dance Team for funding the 2022 Dance Blast - Performing Arts Warehouse Dance Team be approved; and,
2. That the Administrator forward the remaining sixty percent (60%) of the approved funding allocation in the amount of \$3,000 to the Host Committee.

Absent: Mayor Dionne and Richard Ahenakew

CARRIED

6.2 Destination Marketing Fund Grant – Final Report – 2022 Ecole St. Mary Boys Basketball Tournament (RPT 22-164)

Verbal Presentation was provided by Melodie Boulet, Administrator, Destination Marketing Fund.

0013. **Moved by:** Selanders

1. That the Final Report Form from the Event of Ecole St. Mary High School Sr. Boys Basketball Team for funding the 2022 St. Mary Boys Basketball Tournament be approved; and,

2. That the Administrator forward the remaining sixty percent (60%) of the approved funding allocation in the amount of \$600 to the Host Committee.

Absent: Mayor Dionne and Richard Ahenakew

CARRIED

- 6.3 Destination Marketing Levy Grant Funding – New Grant Funding Model (RPT 22-167)

Verbal Presentation was provided by Melodie Boulet, Administrator, Destination Marketing Fund.

0014. **Moved by:** Selanders

That a report be forwarded to City Council for consideration of amendments to the current Destination Marketing Levy Policy 89.2 to reflect a revised funding model, as identified in Appendix A within RPT 22-167.

Absent: Mayor Dionne and Richard Ahenakew

CARRIED

7. UNFINISHED BUSINESS

8. ADJOURNMENT – 4:49 P.M.

0015. **Moved by:** Councillor Cody

That this Committee do now adjourn.

MINUTES ADOPTED THIS 17TH DAY OF MAY, A.D. 2022.

TITLE: Crosswalk Safety Improvement Study

DATE: April 22, 2022

TO: Executive Committee

PUBLIC: X

INCAMERA:

RECOMMENDATION:

That the nine crosswalk safety improvement recommendations in this report be approved.

TOPIC & PURPOSE:

The purpose of this report is:

1. To analyze the safety and performance of crosswalks within the City of Prince Albert including Pedestrian half-signals.
2. To bring forward a plan to upgrade crosswalks to a standard level of safety.
3. To introduce Rectangular Rapid Flashing Beacon's (RRFB's) as a crossing treatment to the City of Prince Albert.

BACKGROUND:

The Department of Public Works performed a crosswalk safety study throughout the City of Prince Albert from November 2021 to April 2022 to determine crosswalk locations needing improvement in order to operate at a standard level of safety. The Standards from the Transportation Association of Canada (TAC): Pedestrian Crossing Control Guide of 2018 (The Guide) were used in this study. The Guides Pedestrian Crossing Decision Matrix utilizes data such as traffic volume, traffic speed, pedestrian count, and road width to standardize crosswalk treatments used throughout Canada.

The updated 2018 edition of the Guide introduces a new crossing treatment called Rectangular Rapid Flashing Beacons (RRFB's). Since the introduction of this treatment in 2018 many Cities have installed them with great success. Calgary is currently installing RRFBs at 450 crossing locations from 2019-2027 to improve pedestrian safety. Other nearby cities that have implemented this treatment include Saskatoon, Edmonton, Warman, Martensville, Rosthern and the Town of Vegreville.

Rectangular Rapid Flashing Beacon Treatment

The City of Saskatoon Transportation Division was consulted and provided the response that where the RRFBs have been installed they have been quite effective. The Beacons are fully solar powered and have not had any power outages since installation in 2018. The City of Saskatoon currently has 10 RRFB treatments with 10 more approved for installation in 2023. RRFBs show many benefits for pedestrian and motorist safety when used correctly. Studies have shown increase in driver yield rates of up to 96% and pedestrian-vehicle crash reduction of up to 47%. The beacons allow pedestrians to cross the road more efficiently as they do not have to wait for vehicles to decide to stop and yield the right of way. An additional benefit is that the technology is fully solar powered and supports sustainability. This also allows the pedestrian crossings to be active during power outages.

The crosswalk safety study also aimed to increase standardization of crosswalk treatments throughout the City of Prince Albert and Canada as a whole. It is essential that all motorists and pedestrians, regardless of what City they are visiting, know how to use each crosswalk treatment and have a feel for what situations they are used in. Design consistency has been shown to greatly increase the effectiveness of the treatments used.

Of the crosswalks reviewed, many locations were found to not meet TAC standards. However, engineering judgement was used to determine the locations that would provide the greatest impact to the community. Further review of crosswalks will be done in 2022-23 to continue standardizing and improving crosswalks for pedestrian safety and accessibility. The following 9

locations were selected for improvement in 2022.

1. 10th Avenue West at Victoria Hospital (Shown in Attachment labelled Attachment 1 - 10th Ave W at Victoria Hospital)
2. 15th Avenue East near Helme Crescent (Shown in Attachment labelled Attachment 2 - 15th Ave E near Helme Cr)
3. 6th Avenue East at 8th/9th Street (Shown in Attachment labelled Attachment 3 - 6th Ave E at 9th St)
4. 1st Avenue East at 8th Street (Shown in Attachment labelled)
5. 16th Avenue West at 15th Street (Shown in Attachment labelled Attachment 5 - 16th Ave W at 15th St)
6. 3rd Avenue East at 28th Street (Shown in Attachment labelled Attachment 6 - 3rd Ave E at 28th St)
7. 4th Avenue East at 22nd Street (Shown in Attachment labelled Attachment 7 - 4th Ave E at 22nd St)
8. 6th Avenue West at 22nd Street (Shown in Attachment labelled Attachment 8 - 6th Ave W at 22nd St)
9. 2nd Avenue West at 13th Street (Shown in Attachment labelled Attachment 9 - 2nd Ave W at 13th St)

A comprehensive map of all pedestrian crossings, traffic signals and pedestrian half-signals throughout the City has been included (Shown in Attachment labelled Attachment 10 - City of Prince Albert Traffic Light and Crosswalk Map).

PROPOSED APPROACH AND RATIONALE:

It should be noted that all RRFB crossing upgrades recommended in this report have been submitted for SGI Traffic Safety Grant Funding. The decision for grant acceptance will be made in the last week of June 2022.

1. **10th Avenue West at Victoria Hospital** - This crossing currently has a permanent

amber flashing pedestrian crossing warning beacon. These beacons were installed to improve safety following a pedestrian fatality at the crossing in April 2017. Over the years drivers have become accustomed to the permanent flashing and generally do not stop for pedestrians waiting to cross. The Department of Public Works has record of 2 pedestrian concerns/near misses at this location in the last 5 months.

According to TAC standards this crossing is not operating at a safe level for pedestrians and requires an upgrade. A RRFB Treatment is recommended at this location. This treatment would replace the existing permanently flashing amber beacons. 2021 traffic counts show that 10th Avenue West has an average daily traffic count of 6,141. This location also has a high number of vulnerable road users and is considered a priority for improvement.

2. **15th Avenue East near Helme Crescent** – At existing, this highly used crosswalk deploys pedestrian crossing signage and zebra traffic paint. It has been noted that pedestrians often have to wait an extended period of time for vehicles to yield the right of way to allow them to cross the road. High pedestrian usage and traffic volume counts of 9,071 AADT make this location a priority for review.

TAC standards dictate that this crossing is not operating at a safe level for pedestrians and requires an upgrade to an actuated pedestrian crossing. An RRFB Treatment is recommended for installation.

3. **6th Avenue East at 8th/9th Street East** – At current, there are two standard pedestrian crossings to be addressed. They are located at 8th and 9th Street crossing 6th Avenue East. This is a crossing location that is required for pedestrian connectivity as the nearest marked pedestrian crossings are located at River Street and 13th Street. The crossing is directly adjacent to the Midtown Community Center which attracts a larger number of elementary aged children who are considered vulnerable road users. 6th Avenue East is a 2 lanes per direction arterial roadway with a current traffic count of 11,321 AADT.

TAC standards dictate that neither of the crossings are operating at a safe level for pedestrians to cross. Removal of the 8th Street crossing and installation of an RRFB Treatment at 9th Street is recommended.

4. **1st Avenue East at 8th Street East** – This location currently utilizes a pedestrian half signal treatment. However, TAC standards warrant this location to have a standard zebra crossing with pedestrian crossing signage. The existing AADT is 2,944 which allow for consistent gaps in traffic for pedestrians to cross. A pedestrian half-signal is only required on a 2 lane road only when the speed limit is 60 km/hr or greater with an

AADT of >15,000. The crossing location has seen a large decline in use since the removal of the CO-OP in 2011.

In addition, due to damaged conduit from a water main break in the winter of 2022, extensive work will be required to repair this signal if it is not removed. Removal of the pedestrian half-signal at this location would cost approximately \$1,000. Repair of the signal would cost approximately \$45,000 including hundreds of hours of City labor. For this reason it is strongly recommended that the pedestrian half-signal be removed and replaced with a standard crossing with zebra crosswalk paint.

- 5. 16th Avenue West and 15th Street West** – This location currently utilizes a pedestrian half-signal crosswalk treatment. The crossing is commonly used to access nearby businesses and cross 15th Street West. The current average daily traffic is 4,944 and warrants a standard zebra crossing with pedestrian crossing signage. It should be noted that there is a standard pedestrian crossing at 15th Street West and 18th Avenue West with similar traffic counts that has had zero recorded accidents since 2012. Removing these lights would save in electricity costs and further standardize treatments throughout the City.

Standardizing crosswalk treatments is important for proper pedestrian and motorist synergy. Often unwarranted crossing treatments lead to less safe operation. An example of this is that pedestrians will cross the street without pressing the pedestrian crossing button since there are large gaps in traffic. Traffic is used to looking up at the green or red traffic light and is not looking for a pedestrian crossing the roadway. This can lead to dangerous split second decisions and often increases rear end and fixed object collisions.

- 6. 3rd Avenue East and 28th Street East** – This location currently hosts an important elementary school crossing. It is essential to ensure all children are safe when crossing the 28th Street arterial roadway with an average daily traffic of 10,770. It has been determined that this particular intersection would be improved with the use of RRFBs. This is supported by TAC standards.

The benefit of this treatment is that traffic can proceed with caution after a child has crossed the road (similar to the crossing over 6th Avenue East at Carlton Comprehensive High School) whereas, currently the pedestrian half signal stops traffic for 25 seconds. This improvement would act to reduce traffic congestion along 28th Street during peak hours as well as allow children to cross the street safely. It should be noted that crossing guards are used at this locations as an additional safety measure.

Removal of the existing pedestrian half-signal and installation of an RRFB treatment is

recommended at this location.

7. **4th Avenue East at 22nd Street** – This important crossing of 22nd Street East commemorates Rudy the long-time crossing guard and his decades of service to the community. Rudy will be recognized and this location will remain a crossing for each proposed option.

This location currently utilizes a pedestrian half-signal treatment. TAC standards dictate that this location warrants a standard pedestrian crossing with zebra traffic paint and pedestrian crossing signage. It is recommended that the pedestrian half-signal be removed and replaced with a standard zebra crosswalk.

Due to the importance of this crossing to the community another option exists to remove the pedestrian half-signal and install an RRFB treatment. If this option is selected installation would proceed in 2023 under the traffic operating budget.

8. **6th Avenue West at 22nd Street** – This crossing was formerly used as a crossing for the old St. Anne's Catholic School. After the new construction of St. Anne's Catholic School was completed a new pedestrian half signal was built at the crossing of 6th Avenue West and 24th Street. This reduced the use of the pedestrian half-signal at 22nd Street West. In October 2019 a crossing study was done that showed 26 pedestrians crossing the road per day. It should be noted that the current AADT on 6th Avenue West at 22nd Street West is 4,193. The traffic count is low enough that gaps in traffic are common. For this reason, it has become a common occurrence that pedestrians cross at this location without activating the traffic signal.

TAC standards do not recommend pedestrian half-signals on 2 or 3 lane two-way roads when at an operating speed of 50 km/h regardless of traffic or pedestrian count. For this reason, along with electricity and maintenance cost savings, it is recommended that the pedestrian half signal be taken down and replaced with a standard zebra crossing.

9. **2nd Avenue West and 13th Street West** – This is a highly used pedestrian crossing within the City of Prince Albert. A pedestrian crossing study was done in October 2019 which showed 212 pedestrians crossing (East-West) per day at this location. TAC standards dictate that overhead rapid flashing beacons similar to what is installed at Carlton and 6th Avenue East are warranted in this location. The largest benefit to this crossing improvement is reduced traffic congestion as well as reduced traffic/pedestrian collision rate. SGI crash statistics show that 104 traffic accidents have been recorded between 12th and 14th Street since 2012.

The main concern at this crossing is that the extended stop time causes traffic backups on the Diefenbaker Bridge regularly. During peak hours and long weekends traffic backups through 15th Street West are also not uncommon. It should be noted that the existing crossing has a red light time of 35 seconds to allow senior citizens to cross the 28 meter wide street. Traffic backups and reduced sightlines lead to dangers not only for traffic but for pedestrians trying to cross the street at 2nd Ave W/15th St and 2nd Ave W/12th St. It is recommended that the pedestrian half signal is converted to an Overhead Illuminated Rapid Flashing Beacon allows traffic to move with caution once pedestrians have crossed.

Proposed Double Cantilever Overhead Illuminated Rapid Flashing Beacon Treatment for 2nd Avenue West at 13th Street.

CONSULTATIONS:

The City of Saskatoon Transportation Division was consulted to determine the effectiveness of RRFBs thus far in the City of Saskatoon. It was determined that the RRFB Treatment had been effective where implemented so far in the City of Saskatoon. The City currently has 10 sets of RRFBs and has 10 more approved for installation in 2023.

The Prince Albert Police Service was consulted and are in support of the installation of RRFBs at all locations proposed in this report.

COMMUNICATION AND/OR ANNOUNCEMENT PLAN:

If the suggested improvements are approved the Department of Public Works will consult with the Department of Communications to issue a statement regarding crosswalk improvements/pedestrian half-signal removals throughout the City. This statement will also include a public introduction to the safe use and benefits of RRFBs and their new locations within the City.

POLICY IMPLICATIONS:

None

FINANCIAL IMPLICATIONS:

1. **10th Avenue West at Victoria Hospital** – A total amount of \$12,252.64 was submitted for SGI Grant Funding for the purchase of 2 RRFBs, Traffic Poles and material for concrete piles. The traffic operating budget will be used for all City labor and equipment used for installation.
2. **15th Avenue East near Helme Crescent** – A total amount of \$12,252.64 was submitted for SGI Grant Funding for the purchase of 2 RRFB's, Traffic Poles and material for concrete piles. This would fully fund the upgraded treatment installation. The traffic operating budget will be used for all City labor and equipment used for installation.
3. **6th Avenue East at 9th Street** - A total amount of \$18,378.96 was submitted for SGI Grant Funding for the purchase of 3 RRFB's, Traffic Poles and material for concrete piles. This would fully fund the upgraded treatment installation. The traffic operating budget will be used for all City labor and equipment used for installation.
4. **1st Avenue East at 8th Street** –Removal of the pedestrian half signal is to be performed using City labor and will not have a direct material cost. The removal will promote treatment standardization and save approximately \$44,000.
5. **16th Avenue West at 15th Street** – Removal of this pedestrian half signal will be performed using City labor and will not have a direct material cost.
6. **3rd Avenue East at 28th Street** – A total amount of \$12,252.64 was submitted for SGI Grant Funding for the purchase of 2 RRFB's, Traffic Poles and material for concrete piles. This would fully fund the upgraded treatment installation. Removal of this pedestrian half signal will be performed using City labor and will not have a direct

material cost.

7. **4th Avenue East at 22nd Street** – Removal of this pedestrian half signal will be performed using City labor and will not have a direct material cost.
8. **6th Avenue West at 22nd Street** – Removal of this pedestrian half signal will be performed using City labor and will not have a direct material cost.
9. **2nd Avenue West and 13th Street** – Conversion of the existing pedestrian half signals to overhead rapid flashing beacons will require relocation of traffic poles and concrete piles. Materials will cost approximately \$22,000. All additional equipment and labor will be financed in the traffic operating costs.

The average pedestrian half signal uses approximately \$350 in electricity each year. The removal of the 5 proposed pedestrian half-signals would save approximately \$1750 in electricity per year. Additional savings would also be seen as a result of reduced maintenance and upkeep costs.

A total amount of \$55,136.89 has been submitted to SGI for crosswalk safety grant funding.

PRIVACY IMPLICATIONS:

None

OTHER CONSIDERATIONS/IMPLICATIONS:

STRATEGIC PLAN:

This report supports the following long term strategies.

1. To enhance active transportation throughout the City of Prince Albert.
2. To improve pedestrian and motorist safety at crosswalk locations within the City.
3. To utilize proven sustainable energy technologies when possible throughout the City.
4. To standardize crosswalk treatments throughout the City.

CITY OF PRINCE ALBERT

Crosswalk Improvement Study

TRANSPORTATION AND TRAFFIC MANAGER

May 2022

Prince Albert Crosswalk Study

OVERVIEW

A pedestrian crosswalk treatment study was completed from November 2021 – April 2022 by the Transportation and Traffic Manager.

3 Major Goals of the Study

1. Enhance pedestrian and motorist safety at crossings within the City.
2. Improve active transportation system.
3. Reduce traffic congestion at sensitive crossing locations.

Rectangular Rapid Flashing Beacon (RRFB)

- Widely used crosswalk treatment in North America.
- Used in City's as large as Calgary, Edmonton, and Saskatoon to City's as small as Martensville, Warman and Vegreville. Majority of City's are now using this treatment.
- Calgary is set to add 450 RRFB treatments from 2019-2027.
- Added into Transportation Association of Canada: Pedestrian Crossing Control Guide Decision Matrix in 2018.
- This study confirmed that this treatment is a **minimum** safety requirement at multiple locations in Prince Albert.

Rectangular Rapid Flashing Beacons

SASKATOON EXAMPLE: 3 LANE UNDIVIDED (115TH ST EAST)

15th Avenue East near Helme Crescent

EXISTING TREATMENT

3rd Ave East + 28th Street East

EXISTING CROSSING

Hospital + 10th Avenue West

EXISTING CROSSING

Benefits of RRFB's

- Increased motorist yield to pedestrian rate; pedestrians face less delay when crossing the street.
- Fully solar powered. Sustainable and no recurring electrical costs.
- Reliable and proven to operate in cold climates (Saskatoon).
- Reduced traffic congestion compared to pedestrian half-signals.

9th Street East + 6th Avenue East

EXISTING CROSSING

Rectangular Rapid Flashing Beacons

SASKATOON EXAMPLE: 4 LANE DIVIDED (TAYLOR STREET)

2nd Avenue W/ 13th Street Video

COMMON TRAFFIC CONGESTION DIEFENBAKER BRIDGE

6th Avenue East / Carlton Video

REDUCED TRAFFIC CONGESTION

2nd Avenue West + 13th Street

PROPOSED TREATMENT

- The same pedestrian crossing treatment that is used at Carlton. This treatment will reduce traffic congestion and improve safety along 2nd Ave West.

Cost Summary

Rectangular Rapid Flashing Beacons

- For the 4 proposed locations the total material cost will be \$55,136.89. This is pending SGI Traffic Safety Grant Funding. Labor and equipment is to be provided by the City.
1. 6th Avenue East + 9th Street (Midtown Community Center)
 2. 15th Avenue East near Helme Crescent
 3. 10th Avenue West + 25th Street (Hospital Crossing)
 4. 3rd Avenue East + 28th Street (Vincent Massey)

Overhead Flashing Beacons (2nd Avenue W + 13th Street)

- Estimated material cost of \$22,000. Will be covered in the Traffic Operating Budget.
- It should be noted that removing the pedestrian half-signals at 2nd Ave W + 13th St and 3rd Avenue East + 28th Street will save approximately \$700/year in electricity.
