

# How to use Station

## 1. Before You Start

1. Park your truck or tank so the fill connection lines up safely with the hose/spout.
2. Turn off your vehicle and set the parking brake.
3. Make sure you have:
  - a) **A working credit card (Note: Only credit cards are accepted at this station).**
  - b) The correct fittings/adaptor to connect to your tank.
4. Check that your tank has enough free capacity for the amount of water you plan to take.
5. **CONNECT HOSE**
  - a) Place the hose securely into your tank opening.
  - b) Ensure tank valve is open.

## 2. At the Control Panel / Terminal

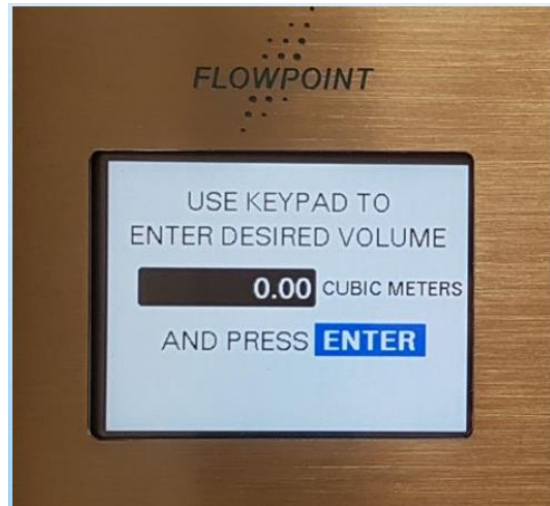

### 1. START

- Press START on the keypad to begin.

## 2. ENTER VOLUME (m³)

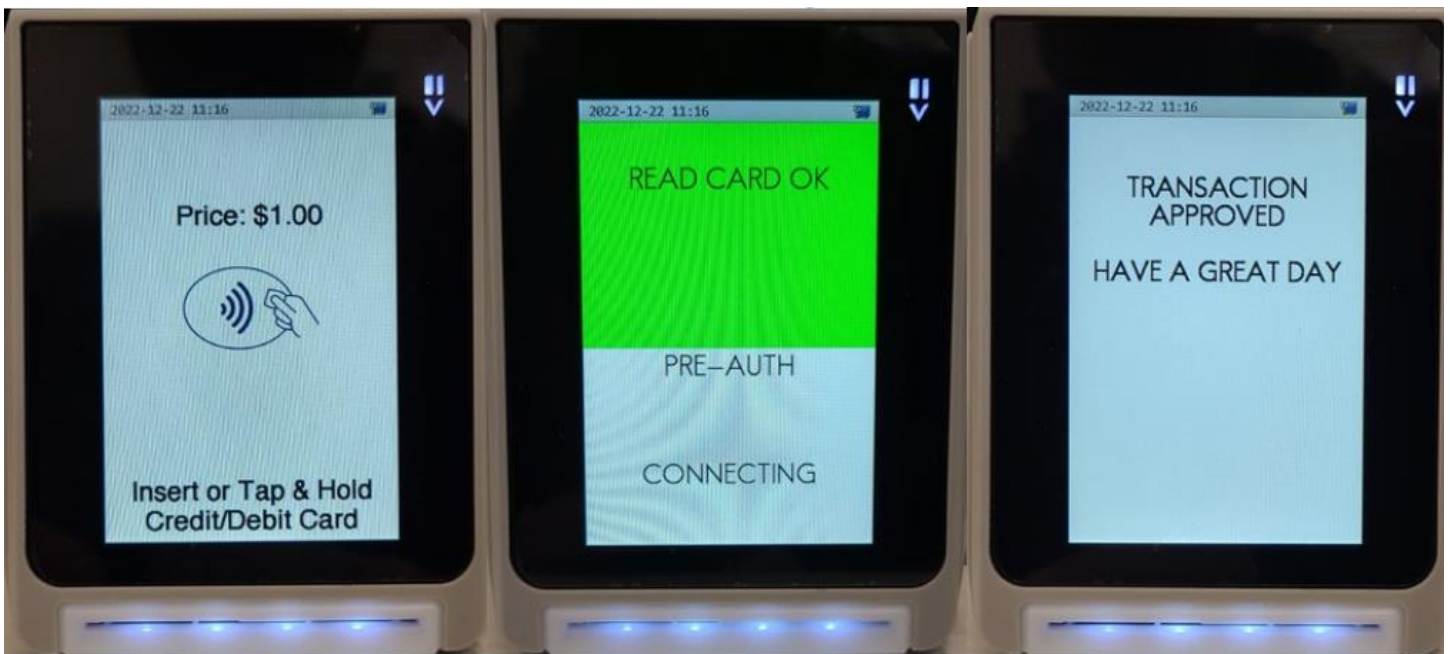

- Type the amount of water you want (in cubic metres).
- Example: 1.00 m³ = 1,000 L
- Press ENTER.

## 3. TAP / SWIPE CREDIT CARD

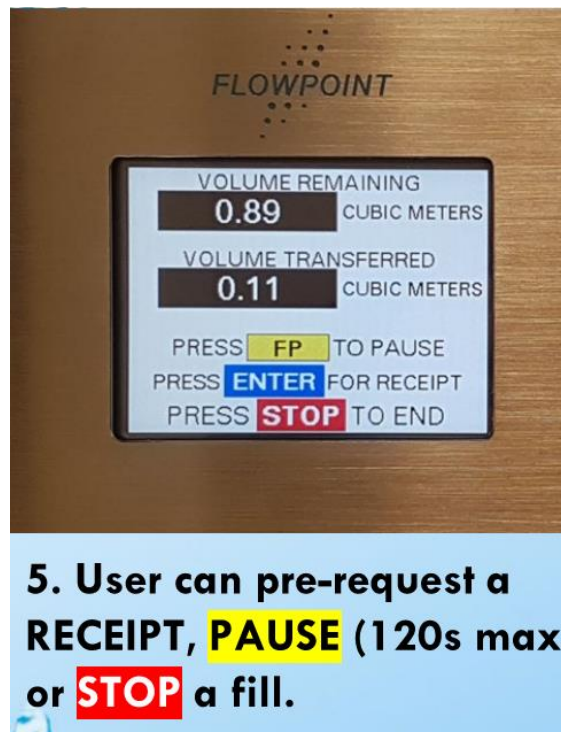

- When the total cost appears, tap, swipe, or insert your credit card.
- Wait for Payment Approved.

#### 4. START FILL

- Press START to begin dispensing.
- Monitor the display during fill.

#### 5. OPTIONAL

- PAUSE – up to 120 seconds
- STOP – ends the fill early

## 6. FILL COMPLETE

- System stops automatically when volume is reached.
- Screen shows: Volume Dispensed and Card Charges.
- Print RECEIPT immediately if needed by pressing ENTER.

## 7. DISCONNECT

- Remove hose carefully.
- Return hose to holder.
- Close tank cap.

## 8. FINISH

- System returns to idle screen.
- Move vehicle out of filling area.
